USSA FAMILY DAY 2022

**Nur Asilla Binti Hazman
Neocardia Club**

Last Saturday, on the 21st of May, UiTM Student's Surgical Association's members went to Tadom Hill Resort for their annual family day. It was a daily activity that started at 8:30 in the morning and ended at 5 in the evening. This activity aims to strengthen the bond between club members, get to know new members of USSA, and have a short sweet escape from the stress of medical life.

The event starts with an opening speech from USSA's president, Ahmad Muaz, a year three medical student. The first activity that had one was ice- breaking. All the members were randomly grouped into six different groups. After presenting each of the group names and the slogan, They proceeded with a game called charades. It was a great knowing everyone had fun.

The next activity that took place was Minefield. The next game required the group leader to guide their teammates to pass through the obstacles. All the members were blindfolded and needed to pass through the barrier in one try.

The competition between the groups was fierce and can be seen as dirty plays were caught red-handed by the judges, but it was all for fun, and no one was harmed in the space. After that, they played a Scavenger hunt.

USSA club members

Each group was assigned two tasks which are collect items placed randomly around Tadam Hill and take photos of the thing surrounding them. They had a good time enjoying this game. Besides, they get a better look at Tadam Hills as well as they had to explore Tadam to find those items.

Last but not least, for the last activity, they had water confidence. It was the highlight activity of the family day. Tadam Hill provides five different water sports. It was very adventurous. The water sports offered include bamboo rafting, canoeing, water slides, a tarzan swing, and a 5m bamboo diving platform. They had a great time enjoying these activities, and they were also able to bond with each other regardless of their seniority.
