- Field of Focus (Staff Management and Development)
- Criteria (Customer Focus)
- Criteria (Results)

Congratulations FSG, we did it!

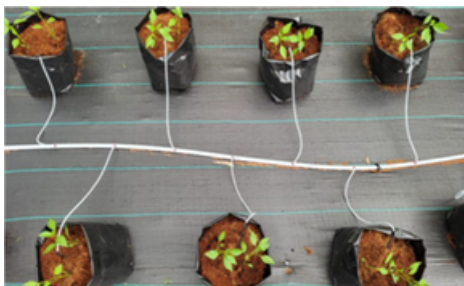

AgroFarm2U: FSG Community Engagement Project

By: Dr Khairul Adzfa Radzun, Dr Norazila Ibrahim, Dr Nor Dalila Nor Affandi & Dr Aziyah Abdul Aziz, USR FSG Committee, Faculty of Applied Sciences, UiTM Shah Alam

The USR FSG Committee, in collaboration with the Office of the Deputy Dean of Research, Industry and Alumni Network FSG, intended to organise University Social Responsibility (USR) and Knowledge Transfer Programme (KTP) activities virtually or physically (in accordance with the terms and conditions stipulated by UiTM and the Government of Malaysia due to the COVID-19 pandemic) titled AGROFARM2U in selected biofertilisation-based agricultural communities around Shah Alam or the Klang Valley.

The programme is implemented to increase the visibility of FSG and UiTM in the community through contribution of expertise, technology, and community service in collaboration with an industry representative, Bellus Terra Sdn. Bhd (BTSB). BTSB is willing to provide the Internet of Things (IoT) automated biofertilisation agricultural system costing RM 60,000, comprising four automated units at RM15,000.00 per unit. The programme will be divided into a few phases beginning in October 2021 through April 2022. It was first initiated at the Setia Impian 7, Setia Alam community area. Upon the success of the first project, similar projects will be replicated and enhanced at different select community areas in the near future.
