ACKNOWLEDGEMENT

In the Name of Allah S.W.T, very grateful and praise to the Almighty Allah, the Most Gracious, Most Merciful and benevolent for the blessing that gives me strength and patient in completing this research project on time. This study is a project of combined efforts of many individuals and I am gratefully acknowledging their contribution.

This research was prepared to fulfil the requirement of Bachelor in Business Administration (Hons) Finance. This piece of research has given me the opportunity to gain more knowledge than the mere classes attended. Notably, I am being exposed to the current issues of finance before continuing with the future endeavour challenges.

For my special acknowledgement, I would like to express my deepest appreciation and thanks to my advisor, Mdm. Rohaiza Binti Kamis, whose inspiring ideas and suggestions with skillful guideline as she very helpful in preparing and completing this study. Not to be forgotten to my parent, they are very patient and give support for the whole time in my life.

Last, but not least, special thanks to my supervisor, Mr Norehan Bin Ajis, account department and all staff at Putra Specialist Hospital (Melaka) Sdn. Bhd. for give me an opportunity to learn, experience and I am also being exposed to the working environment.

ABSTRACT

This study project was conducted to identify the level on employee's awareness toward Unit Trust in Putra Specialist Hospital (Melaka) Sdn Bhd. The purpose of this study is to determine the relationship between the public awareness with performance, information and cost-benefit in the financial issue. Hence, this study also determines the elements that can be used to improve the level of awareness for unit trust. The researcher adapts the literature review from the past researcher that are related to the area of this study. Furthermore, the research methodology then, helps the researcher to generate the findings from the distributed questionnaire. The data analysis such as Reliability Statistic (Cronbach's alpha), Frequencies (demographic statistic), Descriptive statistic and Correlation helps to interpret the data successfully. Then, the conclusion and recommendation will come out.
