ACKNOWLEDGEMENT

We five students of group AM1105C are preparing a final written group assignment which is Business Plan (ENT 300). Primarily, we would like to express our profound gratitude towards our beloved lecturer, Dr. Hasnizawati Binti Hashim who had been taught and guided us a lot from the beginning of the class either in google meet or in WhatsApp. As without her clear explanation and kind support, it would be quite difficult for us to complete it in the time given. She gives a lot of information on how to complete it by following the rubric's requirements. We feel very touched and really grateful that she is willing to spend her time by helping to answer each of our questions patiently and giving us many ideas. We really enjoyed learning with her for all this time. Not just that, all the group members also have given the best in group discussion and perform as well in accomplished this report even though each one of us have a few challenges by completing this assignment such as lack of internet coverage, inappropriate environment and many more but gladly we can overcome all these challenges. Last but not least, we highly hope this assignment can meet the criteria as Dr Hasnizawati's want. Thank you so much to everyone who involve directly or indirectly in the making of this task.
