*Faculty of Information Management, UiTM (Kedah Branch)*

### ABSTRACT:

Many students who come to the library that need to accomplish their work or assignments need some personal workspace in order to feel comfortable and some privacy. Same goes to the office worker they will feel uncomfortable and disturbed if it is too crowded by sharing the same desk. Therefore, this project is designed to facilitate them and it is also suitable for all users too.

*Keyword: Desk divider, foldable, divider, desk partition*

---

### Novelty & Uniqueness:

- It can be used with three methods according to the users' wishes.
- The material used is light and can be carried anywhere.
- Can be stacked for storage purpose because it is thin and flat.

### Potential Commercialization:

- To help students to study in a private environment without being bothered by others.
  - To avoid one person, dominate one table by themselves.
  - Avoid table being crowded with others people stuff.
  - Affordable and lightweight
- 

### Acknowledgement:

*Thank you to everyone for the support.*
