ABSTRACT:

This webindex able the students to find out scholarships that available in Malaysia for them to further their studies. This index will help them to make decision better as it has been list out for them. It's link the user to the scholarship website which will ease the user much more than the normal index. They will have a overview of scholarship that is provide to them. It will boost the confidence level of the student in pursuing their studies without worrying about financial.

Keyword: Index, webindex, scholarship, list, finance, studies

Novelty & Uniqueness:

"Webindex has list out the potential scholarships that can help students. Moreover, Webindex has more advantage than normal index where it takes the user to the scholarship page just by clicking the link and it can be update regularly. Unlike normal index, it cannot directly take the user to the scholarship page and it need to take a few steps.

Potential Commercialization:

We are targeting public library and using the medium of U-Pustaka. It can be a platform for this Webindex to be known by the user especially the public library user. Public library targets all types of user and it is the one of the opportunity that we can commercialize this Webindex.

Acknowledgement:

Thanks to God, we are able to come up with this innovation which is the Webindex. All teammates put high effort and ideas in making this project. Not to forget our advisor Pn Rosnita Saarani who put her trust on us and guide us in doing this project. We hope this Webindex can give enormous benefit to all of us. Thank you!
