ABSTRACT:

This product is called erudite desk. This desk is unique as it has a smart locker attach with the desk. To using this erudite desk, we need a matrix card and password. This erudite desk occupies a little space area because the library did not need to provide a locker in the building. Moreover, it is a convenient as the smart locker attach on the table. People won't have to facing with losing their things at the library anymore.

Keyword: locker table

Novelty & Uniqueness:

This idea is inspiring from web. Based on what we read the reason why people do not like to go to the library because they need to leave their laptop or important thing on the table to get books and some of them have an experience losing their thing in the library. This article gave us some idea to create a product that can benefit all of us and the library.

Potential Commercialization:

It has a smart locker beneath the desk and the most important it is a durable product. It can be used by people of all kinds. This erudite desk is more suitable to place in the library as it has a smart locker that can keep our thing safe.
