ACKNOWLEDGEMENT

Assalamualaikum Warahmatullahi Wabarakatu,

Alhamdulillah, let us begin by giving thanks to God for enabling us to finally do this assignment. Although there is a small issue where we are unsure of which building should be selected as a case study, this assignment has been completed by all abilities from the start of Progress 1 through Progress 5. Once more, we would like to express our gratitude for finishing the Integrated Final Project (IFP) assignment successfully and within the time limit provided by our lecturer, Sr. Ts. Dr. Hassan bin Hashim. We also thank Sr. Ts. Dr. Hasnan bin Hashim, the lecturer for BSR330's Integrated Final Project, for his instruction in this course as well as for his support and encouragement in finishing this assignment. Not forgetting that we also want to express our gratitude to our dear friends who are always helpful and even willing to spend some time with us to answer our questions.

We also acknowledge the assistance and information that Mr. Moharizal bin Mohammed, the building manager of Wisma AmFirst in Kuala Lumpur, supplied in order to complete this assignment. Lastly, I would like to express my gratitude to all of my teammates, Jas Danish, Khairul Fahmi, Adriana Sofiya, and Afrina Rifqah, for their hard effort and involvement in helping to finish this task and give suggestions.
