Abstract

Basically Smart Table is a tablet infuses with a table. Smart Table is designed to ease people works/tasks especially librarian for example catalogers, information managing, etc.

Why Smart Table?

To manage people's everyday tasks. It helps getting your works, assignment, projects done by using multitasking mode. User-friendly interface suitable for adult and teens.

How does Smart Table works?

Basically how does Smart Table work is the same as how computers, tablets and your daily smartphones works, except it more focus on managing your daily work tasks. Smart Table is a touch screen device, yet it make of ease to your staff to handle their daily works.

Novelty and uniqueness: Smart Table is specially designed for library tasks. For cataloging tasks, catalogers need to refer to more than standards in performing catalog records. With the help of Smart Table, catalogers are easy to refer all standards in one screen, Smart Table. Smart Table helps ease of daily works of the librarians, especially catalogers, reference officers and many more.

Keyword: Smart Table, Tablet, and Smartphone

Potential commercialization: Smart Table suitable to be used by library staff, administrator of academic institution (performing integrated system of student management), as well as government institution. Government institution can get the advantage of Smart Table by facilitate them to refer to more than one website at one time. Smart Table really, and really useful for Registration Department, Surveying Department and many others department that apply the management system in their daily works.
