Abstract

This innovation can replaced the old model book shelves that available in the library. Then, this book shelves can make it easier to the user, and also to the librarians to arrange books according to the call number. This book shelves has covered with glass that will prevent the books from falling. So the books will always stay in order. Other than that, there is also a touch button which is user can choose the books easily and faster. If the book are not available so the button will show an X sign and it will turned to red. When the book is there the button will show you green and a tick sign. Last but not least, we confirmed you this book shelves will not cluttered and always give you the best result when you use it.

Keyword: Smart Book Rack

Potential commercialization: -
