Greetings and welcome to the inaugural edition of the Postgraduate Post for the year 2023!

As we begin a new academic year, IPSis is proud to continue our mission of providing outstanding services to our postgraduate students and the university.

We are thrilled to announce that our enrollment has continued to grow, with a 10% increase in overall enrollment and a particularly strong increase in our international student population. This growth reflects the high demand for our academic programs and the exceptional reputation of UiTM.

In the coming months, IPSis will be participating in a series of promotional events, including Selangkah ke UiTM, Jom Masuk IPT, and education fairs abroad. These initiatives are part of our ongoing efforts to position UiTM as the top choice for postgraduate education, particularly among the local market.

On behalf of IPSis, I would also like to extend my heartfelt congratulations to all our graduates who will receive their scroll during **ISTIADAT KONVOKESYEN UiTM KE-96** this month. It has been an honor to be part of your journey during your time at UiTM, and we are proud to have you as part of the UiTM family.

We hope that you will find this issue informative with a range of articles and features highlighting the achievements of our students, college of studies, faculties, branch campuses and academic centers. We also showcase the latest developments from IPSis, including updates on our events and initiatives.

Till then....take care!

Prof. Ir. Dr. Zuhaina Hj Zakaria

Dean's Message

From Chief Editor's Desk

Assalamualaikum and Greetings

Peace be upon Ilahi for with his mercy and will, PGS POST Edition 1/2023 is now successfully released. The making of PGS POST has commenced since early of 2023 with the aim to record all activities and information involving IPSis and faculty postgraduate office from Jan 2023 till April 2023. In creating more engaging of content, the input has been planned, arranged and executed, particularly the addition of several slots which encourage other postgraduate office faculties to get involved in the production of PGS POST. We wish PGS POST portray a more energetic side of IPSis.

In conclusion, the Editorial Board, therefore, hopes that PGS POST Edition 1/2023 Edition could become a more enlightening and engaging source of information in a simple and precise format.

Salam Aidilfitri from us...

Gear Up For 2023... Towards GRU 2025

Associate Professor Dr Khalilah
Abdul Khalil

11th January 2023 :

Professor Dr Ir Zuhaina Hj Zakaria, Dean of Institute Postgraduate Studies (IPSiS) launched the Initiative Setting Workshop on 11th January 2023 at Institut Latihan Perumahan dan Kerajaan Tempatan (i-KPKT), Bukit Tinggi, Pahang. The goal of 2 days workshop is to plan and as necessary gear up the initiative by creating a detailed and focused roadmap towards Globally Renowned University (GRU) 2025.

The workshop has successfully projected strategic initiatives from 7 divisions which were academic, recruitment and admission, research, course work and mixed mode, academic development, recourses and student, strategic planning and academic quality, as well as administration. Each division has been assigned the task to plan and strategize the activities throughout 2023. All projected initiatives will be documented and distributed among IPSiS staff to ensure this strategic plan is successful and effective and aligned with UiTM GRU 2025. The workshop ended on 13th January 2023.

Networking event between IPSis and faculties through **MiKEPPS** platform

Associate Professor Dr Khalilah Abdul Khalil
&
Associate Professor Dr Siti Farhana Zakaria

27th-29th January 2023:

Institute Postgraduate Studies (IPSis) co-hosted by the Postgraduate office, UiTM Kedah successfully organized the “*Mesyuarat IPSis Bersama Ketua /Koordinator Pusat Pengajian Siswazah*” (MiKEPPS) on 27th-29th January 2023 at Swiss Avenue Hotel, Sungai Petani, Kedah Darul Aman. The meeting was attended by 39 Head and Coordinators of Postgraduate Centers from Colleges, Faculties, Academic Centre and UiTM Branch campuses. This meeting constituted a good opportunity to foster the networking and sharing of knowledge among Heads and Coordinators of the Postgraduate Center in improving governance, accountability and effective development delivery and results to improve UiTM postgraduate operational efficiency.

In this two-day event, all participants were divided into 7 groups and were given issues related to postgraduate students and programs. The outcome is to ensure the UiTM postgraduate management and plans align with the university strategic planning theme which is Globally Marketable. The outcome and suggestions from the discussion will be presented at the respective level for further improvement.

Reaching Uitm Community, Newly Registered Postgraduate Students And Public Through **PG4U**

Recruitment & Admission

14th February 2023:

IPSis welcomes new postgraduate students registering for the March 2023 intake, UiTM community and the public through the Online MS Team platform. The Recruitment and Admission, Academic, Research and Coursework as well as the Management Team were part of the welcoming staff to ensure information related to postgraduates was successfully delivered and also provided the best hospitality to the 300 participants who joined the briefing session.

Apart from sharing information with participants, the platform also creates the opportunity to communicate effectively between IPSis and UiTM community as well as the public who are interested to know more about the UiTM postgraduate programs. The session commenced with a welcoming speech from the Dean of IPSis, Prof. Ir Dr Zuhaina Haji Zakaria where she introduced IPSis as a whole and further thanked all participants for joining the session.

The session was then continued by Assoc. Prof. Dr. Siti Farhana Zakaria, serving as Deputy Dean of IPSis. She elucidated the academic and award requirements. The slot continued with a discrete briefing session by Assoc. Prof. Dr. Aman Ihsan, the Head of Postgraduate Studies (Research Programs) and Dr. Ts Dr Khairul Safuan Muhammad, the Head of Postgraduate Studies (Course Work Programs). Then the session was remerged for the subsequent briefing by Assoc Prof Dr Khalilah Abdul Khalil, the Head of Postgraduate Studies (Thesis Formatting), Sr Dr Siti Mazzuana Shamsuddin, the Head of Postgraduate Studies (Academic Development, Resources & Students) and finally, Assoc Prof Dr Hj. Mohd Shahnawi Muhmad Pirus, Head of Graduate Studies (Recruitment & Admission).

Overall, the program was successful and students were expected to gain useful insights prior to the start of their academic journey.

Local Promotion: Malaysia Career & Training Fair 2023 at Mid Valley.

ChM. Dr Hussein Hanibah

18th to 19th February 2023:

The Malaysia Career & Training Fair 2023 (MCTF 23) is an excellent platform for educational institutions to showcase their programs, facilities, and services to prospective students and the wider community. Such events provide an opportunity for students and parents to explore various educational options and make informed decisions about their educational journey. The primary aim of MCTF 23 is to create awareness and promote postgraduate educational opportunities that are available at Universiti Teknologi MARA (UiTM).

One of the primary benefits of MCTF 23 is that this event provides an opportunity for potential candidates to explore various educational options available in UiTM. Potential candidates can learn about programs offered and admissions requirements by different colleges, Centres of Excellence (COE) and faculties from UiTM. This information helps students to make informed decisions about their educational journey and choose a program that suits their needs and interests.

A combination of different colleges, Centre of Excellence (COE) and faculties members, participated in the event to promote their faculties as one of the choices that postgraduates can consider joining for their masters or PhD program. The faculties members have really optimized the MCTF 23 platform to promote their programs and services and attract prospective students. IPSis, UiTM manage to showcase strengths and unique selling points, and that helps us to stand out from the other educational institute. Furthermore, institutions can network with other educational professionals and share ideas and best practices.

The faculties set up booths to provide information about its programs and services to visitors. Brochures that explained the programs available for their faculties were distributed, and staff members were available to answer any questions that potential students might have. The atmosphere at the booths was encouraging as many postgraduates were interested in furthering their studies and pursuing their master's degree or PhD.

One of the highlights of the event was the free pin number provided by IPSis for those who were interested in pursuing their studies. This pin number will help them in the future if they decide to continue their studies. The visitors were also able to learn about the perks of pursuing their studies at IPSis and the other faculties.

The two-day event ended on the 19th of February with a positive sign from the number of visitors that visited the booths. The participation of IPSis and other faculties in the MCTF 23 provided an excellent opportunity for potential postgraduate students to explore available options to further their studies. Overall, it was a successful event that helped many postgraduates to make informed decisions about their future educational journey.

The MCTF 23 was an excellent opportunity for IPSis to showcase its programs and services to postgraduates. The event provided a platform for IPSis to connect with potential students and highlight the benefits of pursuing postgraduate studies at the institution. With the Dean, Professor Ir Dr Zuhaina Haji Zakaria, present during the event, IPSis was able to provide potential students with expert advice and guidance. By participating in such events, educational institutions can create awareness and promote educational opportunities to the wider community.

Three Minute Thesis (3MT) Competition Returns To Campus

Sr Dr Siti Mazzuana Shamsuddin

6th March 2023:

The Three Minute Thesis competition celebrates the exciting research conducted by Doctor of Philosophy students. Developed by The University of Queensland, 3MT cultivates students' academic, presentation, and research communication skills. The competition supports their capacity to effectively explain their research in three minutes, in a language appropriate to a non-specialist audience.

For over ten years, UiTM has organized a 3MT Competition consistently. Due to the COVID-19 pandemic, the 3MT competition was virtually organized beginning in the year 2020. On March 6, 2023, UiTM proudly hosted the Virtual 3MT Competition, inviting 22 competitors to compete.

Three judges from various backgrounds watched the presentations as they were aired on the IPSis YouTube channel. The appointed judges were Mr. Mohd Fiezreen Bin Ahmad, Managing Editor of Nu Ideaktiv Sdn Bhd, Dr. Shahrul Nizam Ahmad from the Faculty of Applied Science, and Sr. Dr. Rosdi Senam from the Malaysian Anti-Corruption Commission (MACC). Two criteria—Comprehension and Content and Engagement and Communication—were used to evaluate each participant. The judges then decide on the winners in unanimity upon deliberation.

Nur Damia Iwani Binti Zulkiflee, from the Faculty of Medicine has been announced as the winner, followed by Iman Nabilah Binti Abd Rahim from the Faculty of Medicine as the First Runner-Up, and Nur Atharah Binti Kamarzaman from the College of Engineering as the Second Runner-Up. The winners will represent UiTM in the Virtual 3MT Competition at the National Level on the 5th of July, 2023

Congratulations to all winners.

International Promotion: Yes2Malaysia Education Malaysia Expo 2023 in Qatar and Egypt

ChM. Dr Hussein Hanibah

7th to 16th March 2023:

In recent years, "Yes2Malaysia Education Exhibition" has expanded to include other countries such as Qatar and Egypt. These exhibitions provide an opportunity for Malaysian universities to showcase their programs and facilities to potential students in these countries and to promote Malaysia as a destination for higher education. ChM. Dr. Hussein Hanibah from IPSis, Universiti Teknologi MARA (UiTM), participated in this physical education exhibition.

The participation of IPSis, UiTM in this exhibition became the best platform to attract potential candidates from the Middle Eastern countries that have a strong interest in our latest postgraduate programs. This exhibition provides an excellent opportunity for UiTM to meet with prospective students, answer their questions, and provide guidance on the application process.

This is an important indication that UiTM is committed to providing high-quality postgraduate education that meets the needs of the industry and society. With a wide range of postgraduate programs in areas such as Science and Technology, Business and Management, and Social Science, UiTM is well-positioned to attract top talent from around the world. The PG International Physical Exhibition is an important platform for UiTM to showcase its programs and connect with potential candidates, industry partners, and other universities.

The fact that more than 50 international potential candidates from both regions visited UiTM booth during the exhibition. The overwhelming interest from the potential candidates indicates students' interest in studying at UiTM is a testament to the quality of the university's programs and the dedication of the IPSis team in guiding candidates. This reflects the growing demand for skilled professionals in these fields and the relevance of UiTM's postgraduate programs in meeting this demand.

Furthermore, during the period of the exhibition, ChM. Dr. Hussein Hanibah also managed to participate in a few possible series of round table talks with local authorities, schools, universities' counsellors, and the Malaysia ambassador for future collaboration. Collaborations like these can help to facilitate knowledge transfer, research collaborations, and cultural exchange, all of which can benefit UiTM's visibility worldwide.

Overall, it is clear that IPSis UiTM is making great strides in attracting top talent from around the world and positioning itself as a leading public university in Malaysia.

1th March 2023:

The APB e-Postgraduate International Colloquium is an esteemed initiative orchestrated by the APB Postgraduate Centre every semester. It provides a distinguished platform for students to present their research progress, be it preliminary proposals, research findings, literature studies, and more. The recently concluded 4th e-Pic Series, held in a hybrid mode at the APB Shah Alam, saw the participation of 40 outstanding student presentations from across the globe, including China, Indonesia, Pakistan, and Iraq.

The program also hosted two eminent guest speakers - Prof Stefanie Pillay from Universiti Malaya, who serves as the external examiner for the LG750 and LG950 programs, and Prof Dr Atta Gebril from the American University in Cairo, a Mou APB partner. In addition to the distinguished speakers, the program was attended by postgraduate students from Shah Alam and branch campuses, language students from local and international universities, as well as APB lecturers. This eclectic mix of participants ensures a vibrant exchange of knowledge, ideas and feedback, making it a highly valuable platform for the students.

APB e-Postgraduate International Colloquium (ePIC)

Assoc. Prof. Dr. Norhayuza Mohamad,
Head of Centre For Postgraduate Studies (Research),
Academy of Language Studies (APB)

Overall, the APB e-Postgraduate International Colloquium is a remarkable program that showcases the research excellence of students, while providing a forum for collaborative learning, and an opportunity to network with distinguished experts in the field.

APB e-Postgraduate International Colloquium (ePIC) 2023 : Series 4

Theme : Paving New Paths towards Excellence in Postgraduate Language Research

What Can You Do in e-PIC :

- Present your Master and PhD research: ideas, methods, preliminary findings, progress, etc.
- Share about the challenges and opportunities faced in your Masters and PhD journey.
- Opportunity to publish your paper with the International Journal of Modern Languages and Applied Linguistics (IJMAL).

17th March 2023 (Friday)
⌚ 09.00 am - 05.00 pm (MYT)
MODE : HYBRID : (F2F AND VIRTUAL : ZOOM)

Speaker 2 :

PROF. DR. ATTA GEBRIL
Department of Applied Linguistics
The American University in Cairo, Egypt

Pada 18 Mac 2023, Pusat Pengajian Siswazah (PPS) telah menganjurkan bengkel orientasi pelajar baru pascasiswazah untuk sesi 2023/24. Bengkel ini dikendalikan oleh Prof Madya Dr Ellen Chung sebagai Ketua PPS dan dibantu oleh dua orang koordinator iaitu Dr Johari bin Abdullah dan Puan Sheela Faizura Nik Fauzi. Dua orang kakitangan PPS iaitu Cik Fazilawati Binti Othman, sebagai Pegawai Eksekutif dan Puan Rosling Binti Jemiron, sebagai Kerani Kanan juga turut hadir untuk membantu menjayakan program tersebut. Turut membantu ialah pelatih tahun akhir Cik Angelina Jessy.

Bengkel ini bermula pada pukul 8:30 pagi dengan ketibaan dan pendaftaran para pelajar. Selepas sesi pendaftaran, para pelajar akan mendengar taklimat dari Prof Madya Dr Ellen Chung tentang objektif bengkel pada hari tersebut. Sebelum taklimat bermula, para pelajar diminta untuk memperkenalkan diri. Seterusnya, Prof Madya Dr Ellen Chung memulakan taklimat dengan ucapan alu-aluan kepada para pelajar. Bengkel orientasi ini dianjurkan adalah untuk menerangkan serba-sedikit tentang peraturan akademik untuk pelajar pascasiswazah. Seramai 20 pelajar pascasiswazah telah hadir pada sesi tersebut.

Bengkel orientasi ini berlangsung sehingga pukul 11:00 pagi. Setelah tamat sesi taklimat, koordinator dan kakitangan Pusat Pengajian Siswazah juga turut membuat pengagihan makanan tengah hari buat para pelajar. Pihak PPS berharap agar pelajar baru akan menempuh cabaran pascasiswaah dengan penuh kesabaran and kesungguhan.

Gebyar Beasiswa

Nusa Tenggara Barat 2023

Associate Professor Dr Siti Farhana Zakaria

20th Mac 2023:

UiTM menerima jemputan dari Gabenor Nusa Tenggara Barat (NTB); Dr. H. Zulkieflimansyah untuk menghadiri Program Gebyar Beasiswa Nusa Tenggara Barat yang berlangsung pada 20 Mac 2023 di Lombok, Indonesia. Pada majlis ini, Gabenor mengisytiharkan akan meneruskan projek biasiswa kepada masyarakat Nusa Tenggara Barat untuk melanjutkan pengajian di peringkat pascaijazah bagi lima (5) tahun lagi bermula tahun 2024-2029.

Melalui projek pertama Beasiswa NTB yang bermula pada tahun 2019-2023, UiTM telah menerima hampir 100 orang pelajar dari NTB. Antara fakulti yang menerima pelajar NTB adalah Fakulti Perakaunan, Fakulti Seni Lukis & Seni Reka, Fakulti Pengurusan Hotel dan Pelancongan, Fakulti Sains Gunaan, Kolej Kejuruteraan, Fakulti Undang-Undang, Fakulti Perubatan dan beberapa fakulti lain. Seramai empat belas orang pelajar dari kumpulan pertama telah tamat pengajian Sarjana di UiTM.

Adalah menjadi harapan pihak UiTM agar hubungan baik kedua belah pihak ini akan diteruskan dalam menjadikan UiTM sebuah universiti terkemuka dunia pada tahun 2025.

22nd March 2023:

The What It Takes to be The Biggest Loser IPSis program was held from 8 until 14 February 2023 through a screening of health examinations for all IPSis staff. A total of 18 IPSis staff members participated in the Briskwalk 2.0 program before the month of Ramadan arrived. The route used for the Briskwalk 2.0 is using the road around UiTM.

A healthy lifestyle through productive physical activity such as brisk walk can help make people more active and have a healthier lifestyle.

Briswalk with IPSis:

Zuraini Mohamed Idris

Ziarah Kasih Ramadhan 1444H:

Visitation@ Rumah Jagaan Orang Tua Al-Ikhlas, Puchong

Zuraini Mohamed Idris &
Assoc. Prof. Dr Khalilah Abdul Khalil

10th April 2023:

In the month of blessed Ramadan, IPSis successfully held a volunteer program by enlisting senior citizens at “Rumah Jagaan Orang Tua Al- Ikhlas”, Puchong, Selangor. A total of 14 volunteers from IPSis attended the visit to the centre which is occupied by 45 senior citizens including male and female as well as 12 care-taker.

The main objective of Ziarah Kasih Ramadhan is to accommodate those who are less attentive to the community. Senior citizens should still be cherished and cared for because they are indeed generations that contribute a lot to our nation and country.

IPSis has managed to raise funds to buy care housing needs such as standing fans, microwaves, adult diapers and etc. to accommodate the daily needs of the senior citizens at the centre. Among the activities held by the volunteers in order to cherish the senior citizens were light exercise and music entertainment of their favourite songs. In addition, volunteers have taken the opportunity to engage in friendly talks with caregivers before the end of the visit.

Semarak Ramadhan with IPSis:

Preparation and Give Away Bubur Lambuk to Campus Community

Associate Professor Dr Khalilah Abdul Khalil

11th April 2023:

In the spirit of giving during Ramadhan, IPSis took an opportunity to prepare “bubur lambuk” (a mildly spiced porridge) for the campus community.

IPSis staff were actively involved in cooking and packing as well as distributing packs of “bubur lambuk” for the community to enjoy. The cook, En. Badle Shah Yahaya assisted the staff in preparing bubur lambuk starting from 7.30 am and was completed at 12.00 noon. The purpose of this activity is all about creating special and meaningful bonding moments among IPSis staff and the campus community.

The activity ended with an iftar gathering of IPSis staff at Dewan Agong Tuanku Canselor Multilevel Parking area.
