AKNOWLEDGEMENT

First of all, we would like to thank God for His blessings that He has given to us during the Industrial Training at Department of Agriculture Tawau. Without His blessings, we certainly may not be able to accomplish this Industrial Training.

We would like to express my gratitude to the Penolong Pegawai Pertanian Kanan of Department of Agriculture Sandakan, Pn. Junaidah Hj. Mohammad, En. Rosman A and En. Mohd Rhymie because of giving us a great opportunity to take part in their activity, working experience and we would like to thank to all staff because willing to share their experiences, assist us during my practical and teach us a lot of things regarding to agriculture.

A lot of thanks also to our Coordinator of Industrial Training Mr. Hamjah Rusli because of his effort to help us to get a place for industrial training, giving us a guideline for preparing the report of industrial training and advises that he gave to us throughout our industrial training.

Special thanks to our family that they always support us and always advise us during our industrial training period.

We want to express thank you to our friends who have directly and indirectly help us to accomplish the industrial training report and sharing their experience throughout the industrial training with us. Thank you very much.

CHAPTER 1: INTRODUCTION

1.1 AGENCY BACKGROUND

Department of Agriculture Sabah has officially existed as a separate entity since November, 1946. At the outset, Agriculture Department is also responsible for the affairs of animal husbandry and fishery industry. After Sabah gained independence, some departments and agencies were created separately by the Ministry of Agriculture and Food Industry to address other areas and certain aspects relating with the development of the crop. Now, the Department Of Agriculture Tawau is among the departments and agencies under this Ministry

1.5 OBJECTIVE AND FUNCTION

The objective are :

1. Conduct the research in palm oil , peach palm , coconut , and herbs planting for technology development to get good quality of planting materials.
2. Conduct the research in tissue culture on palm oil , banana , pineapple , and orchid to produce a good quality of planting material.
3. To supply palm oil planting material , pandan coconut , peach palm , banana plantlet and pineapple for commercial planting.
4. Provide advise to the farmers.
