### Abstract

Nowadays, education plays an essential role in developing the next generation of innovators and creative thinkers. Therefore, SJKC Taman Connaught had founded the Little Reporters Club (Kelab Redaksi) in 2008 as part of an innovative scheme by the school resource centre. The club offers a variety of interesting activities to exploit the hidden talents of the pupils. In the meantime, the pupils also acquire a set of soft skills that will help them to improve their self confidence in communicating with others as well as the art of presentation in order to become outstanding reporters in the near future. All these are possible due to various innovative programs such as educational camps, workshops, school trips and other exciting activities conducted by the school resource centre. On the whole, the Resource Centre of SJKC Taman Connaught are targeting to produce holistic individuals and developing them to their full potential and fulfill the aspirations of the nation.

Novelty and uniqueness: The club's innovative teaching and training strategies through various methods such as learning camps, workshops, and educational hands-on experience that produce a batch of outstanding little reporters that can speak and write confidently in THREE languages i.e. Mandarin, English and Malay with some of their masterpieces published in the school magazines and editorials.

**Keyword:** Little Reporters, Soft skills and Innovative

---

**Potential commercialization:** The ability to produce good writings in THREE languages i.e. Mandarin, English and Malay enables the little reporters to write news articles of school special events as well as scripts for public speaking speeches along with class or school presentations by utilising the materials and facilities provided by the school resource centre. Moreover, their work has been published in the school magazines and editorials that are being sold in school. Not only that, they are also capable in planning and running an event as they are groomed to be well-planned event organisers. For instance, after mastering the photography skills through related workshops, pupils set up their own photo gallery exhibitions to share their work with the school community. Other than that, the pupils cultivated an interest in being news presenters, radio announcers and emcees from all the workshops they have been exposed to, thus leading them into the world of broadcasting. Therefore, we are looking at potential newscasters or popular radio announcers in the making.
