## UiTMLaw Students Shine at the 40th Jean-Pictet Competition in Albania; Nominated for the Best Speaker Award

Students of the Faculty of Law UiTM (UiTMLaw), comprising Ms. Dayang Nur Afrina Afiqah Abang Jamuri, Ms. Wan Amiratul Husna Wan Usamah and Mr. Muhamad Irfan Jafri have represented UiTM in the 40th Edition of the Jean-Pictet Competition that was held in Durres, Albania. This was the first time UiTMLaw students participated in the event, and the team was among the final 10 teams from all over the world. The team advanced to the semi-finals, with Ms. Dayang Nur Afrina Afiqah nominated for the best speaker award or the Gilbert-Appolis award. The Jean Pictet Competition is unique as it attempts to simulate real-life scenarios reflecting the professional space occupied by the international community of international humanitarian law. Participants adopt different roles, such as legal advisers to ministries, National Red Cross delegates and special interest groups, to respond to legal issues in a hypothetical armed conflict scenario. In this year's competition, participants focused on issues such as children participating in hostilities, environmental consequences of military targeting, detentions in noninternational armed conflicts, and the provision of humanitarian assistance.

## UiTMLaw Hosts the Conference of Heads of Academic Departments (CHAD) 2023

UiTMLaw has been selected as the host of the Conference of Heads of Academic Departments (CHAD) 2023 with the theme "Integrity In and Beyond Contemporary Leadership in UiTM". CHAD, which was organised by the Academy Affair Division was introduced in 2013 to provide a platform for presenting and sharing best leadership practices in academic management aligned with the university's direction. It also provides space for the management of academic affairs to share innovative ideas in advancing education globally in line with UTM's aspirations and efforts to become a Globally Renowned University (GRU) by 2025. CHAD is held in rotation by faculties and branch campuses of UiTM. Parallel with the chosen theme, CHAD is the best platform for sharing practices and discussing future directions to foster productive and integrated academic management, leading educators, academic staff and UiTM students to support the GRU 2025 agenda.
