ACKNOWLEDGEMENT

First of all, I would like to thanks to the campus for giving this opportunity for letting me to have practical training at Stesen Pertanian Kabuloh. It was really a great experience for me. I am very glad that I have spent about three months at Stesen Pertanian Kabuloh. During that time, I learn a lot and also gaining new experience and learn to live in new environment.

Next, I would like to thanks Stesen Pertanian Kabuloh for letting me to have practical training there. A lot of thanks to OIC Hajah Rosmah Hj Jaffar for her guidance and support during the practical time. Besides that, I would like to thank to RO John Jadol for his assist and guidance during practical time, without his help, it would be hard for me to finish my training very well.

I am also deeply indebted to the supervisor, AA Muriani Harry, AAO Razaman Ibrahim, AA Sandra Faradilla ak Stephen, AA Desmond Rangub and SAA Agam Giang for cooperation in providing materials and information to complete this report. I learn a lot of experience during that time. Thanks for spending a lot of time to teach me about theory and also practically about the knowledge of every section. Last but not least, I would like to thanks to all staff in the section for assist in giving me a valuable information and suggestion for me to complete this training report.

I would like to express my appreciation and thanks to Diploma in Planting Industry Management, Mr. Muhamad Syukrie Bin Abu Talip for giving me advices, guidelines and information during the process of completing this report. I would also like to thanks to those whose have helped me to complete this report directly or indirectly.

Sincerely, thank you once again. It is must appreciated.

STESEN PERTANIAN KABULOH BACKGROUND

Stesen Pertanian Kabuloh was incorporated on 1964. It has many sections, including fruits section, rubber section, herbs section, field's crop section, mixed crop section, and planting material section.

That also has a major role:

- i. Research,
- ii. Technology transfer,
- iii. Advisory services to farmers,
- iv. Provide training for training staff. About diseases or pest control, increased yield , and crop information .

Conclusion

The three months of my industrial training had taught me that the real job life is far away different from student life. We have been exposed to a lot of things that we never being taught in class. The environments also differ from the situation that we always been . Communication is the most important thing as it will help us to reach that understanding between the members. The good relationships and bonding between the staffs and us make me feels like I'm home because of their warm welcome.

Next, the knowledge and experience that gained from this industrial training will be my guidance for my future either when pursues my study or the world of occupation. In hope, I wish I can learn and experience like this again as a knowledge and benefit for me. From this knowledge I can bring it to build and improve my career as a plantation student. Besides that, after done with this industrial training, I will share my new experience and information to all people, and they will know that Stesen Pertanian Kabuloh is the best place for industrial training. Once again, the greatest thanks to Stesen Pertanian Kabuloh and all staff who helped finish my industrial training.

Finally, deeply thanks to all people who involved directly or indirectly which have contributed all information and cooperation during my industrial training. All of your effort and help will be highly appreciate by me. Dedicated planters in the making.
