

PITSTOP INITIATIVE: RAK KONGSI REZEKI

By Ms. Azleen Syafiqah Azman, Dr. Nadia Jalaludin, Ms. Nur Syazwana Aqeela Shuhaiza

The Society of Pharmacy Students (SOPHYS) 2024/2025 and Sekretariat Mahasiswa Fakulti Farmasi (SMF) have introduced Inisiatif PitStop: Rak Kongsi Rezeki, a dedicated initiative aimed at supporting the welfare and well-being of pharmacy students within the faculty. This programme was established in recognition of the financial challenges that some students may face while juggling academic responsibilities, living expenses, and daily necessities. With the rising cost of living and the demanding nature of pharmacy courses, PitStop serves as a practical and meaningful effort to ensure that students have access to essential resources while fostering a compassionate, inclusive, and supportive environment.

As part of this initiative, a specially designated rack containing food, drinks, and other essential items has been placed at Room with a Global View (RGV), Faculty of Pharmacy. Students who require these items may take what they need anytime they want, ensuring convenience, accessibility, and privacy. The organising committee members play an active role in maintaining the rack by monitoring the availability of items, restocking the supply when necessary, and ensuring that the space remains tidy and well-organised. This system not only provides immediate assistance but also reflects the spirit of community care and shared responsibility among pharmacy students.

No Student Left Behind

Beyond providing refreshments and small daily necessities, the initiative extends its support to non-resident pharmacy students, particularly those living off-campus who often face additional financial burdens such as transportation, rent, and meal costs. The organising committee members have contributed various essential items to help ease these pressures and ensure that off-campus students are not left behind.

Conclusion

Through these collective efforts, SOPHYS and SMF hope to strengthen the sense of belonging, unity, and mutual support within the faculty. Ultimately, Inisiatif PitStop: Rak Kongsi Rezeki aims to create a nurturing environment where students feel cared for, encouraged, and supported throughout their academic journey.
