

AGR390 INDUSTRIAL TRAINING REPORT

FACULTY PLANTATION AND AGROTECHNOLOGY

UITM SARAWAK CAMPUS MUKAH

NAME: FERRA ANAK HENRY

STUDENT ID: 2014603242

PROGRAMME: DIPLOMA IN PLANTING INDUSTRY MANAGEMENT

PLACE OF TRAINING: SIMUNJAN DISTRICT AGRICULTURE DEPARTMENT

1) ACKNOWLEDGEMENT

In the name of God, the most Gracious, Most Merciful, peace and blessing. Praise to Lord, I would be grateful to the almighty God because permission, blessing and His Guidance enabled me to complete an industrial training, completing the writing of this report and will entitle me to receive a diploma.

For three month I undergo my internship that on 5 December 2016 this year till of 10 March 2017, we finally success fully completed our industrial training report for the remaining 3 months more that I have to continue my training in order to complete my course, I pray to God hoping my journey is in His bless. I also would like to extend my thankfulness precious in my life. my father and mother for all their moral support, financial support and also to my friends for never ending reminding me to always be honest and trustworthy during my training here. As for my supervisor from University Technology Mara (UiTM), Mr. Muhammad Syukrie B. Abu Talip. Last but not least I would like to extend my appreciation to Mr. Benedict Thomas Bumbung ak Musin (Assistant of Agriculture Officer) from Simunjan District Agriculture Department . Not forgotten for all the staff working at Simunjan District Agriculture Department . I very appreciate for their entire kindness helping and teaching me when I'm working there

During these 3 months I am exposed to many new experiences which are very valuable for me to learn and carry out with devotion when I face the real world of working in this industry in the future. The motive of these action is to expose students and let them experience the environment of the real world of before graduating. It is also to prepare students to face the real challenge and learn how to find solution when problem encountered besides completing the course. Besides, it can prepare students on how to polish more there soft skill especially on how to communicate with others and learn to do work in a group. At college students usually communicate with people around their ages but when working there our differences in age and this communication skill. Most of the course need to undergo 6 months training period in order to complete it as for others only 3 months but the period of time undergo this training is not measurement to ensure the students will get full benefit out of it.

If the students itself doesn't know to grab the opportunity given even undergoing training for 3 months would be useless. Therefore t is important to make use of the chances given and make the best out of it as this experience is priceless and it wouldn't be the same when we are working later.

2) INTRODUCTION

Samarahan Divisional Agriculture Office has been established since July 1st, 1986. Samarahan was officially declared as a division on January 1st, 1987.

Samarahan Divisional Agriculture consists of four districts which is Kota Samarahan, Serian, Simunjan and Asajaya Districts.

Samarahan is the main agriculture area in Sarawak. It is the most important area for the production of agriculture commodities such as coconut, sweet oranges, cocoa, pepper and production of livestock products. Samarahan is presently also a preferred tiger-prawn rearing zone among aquaculture entrepreneurs.

VISION:

- A nation with sustainable agriculture productivity and water for all.

MISSION:

- To accelerate broad based agriculture, water and irrigation development for social economic growth and development.

MANDATE:

- To improve agriculture productivity and sustainably develop and development and manage land and water resources to achieve food, nutrition and income security for economic growth and development.

6) CONCLUSION

As a conclusion, industrial training is significantly beneficial to all concerned parties in contributing towards the development of the nation. Most of the staff at Simunjan District Agriculture Department are a local people of Simunjan. Majority them are Iban and Melayu respectively. They are very friendly with us during 3 month my industrial training. I'am very enjoyed my practical field and gained many experience from that.
