MR. MUHAMAD SYUKRIE BIN HJ. ABU TALIP

ACKNOWLEDGEMENT

I would like to express my deepest appreciation to all those who provided me the possibility to complete this report. A special gratitude me give to our head of department, Mr.Nalong Buda, Mr.Sylvester Igak (senior agriculture officer), thanks because give me and my team mate chance to try the new things and new work which before that we always not doing that.Thank you for all the advice and guidance as I'm working here as trainee. To all Taman Pertanian Universiti staffs, big thanks I said for the warm welcomed and a very nice hospitality that had been provided for me in order to complete my industrial training.

Furthermore, i would also like to acknowledge with my lecturer so do called as my supervisor from Universiti Teknologi Mara (UiTM) Sarawak, Mr. Muhammad Syukrie bin Hj. Abu Talip, thank you for the knowledge and also guidance that you give during my training and also helping me by giving me some opinions in order to complete my industrial training report and always give me support to finish my practical training. Special give thanks also me give to my family because anytime have with me does not matter happy or sad and also pray for me to always successful. I hope that i am blessed.

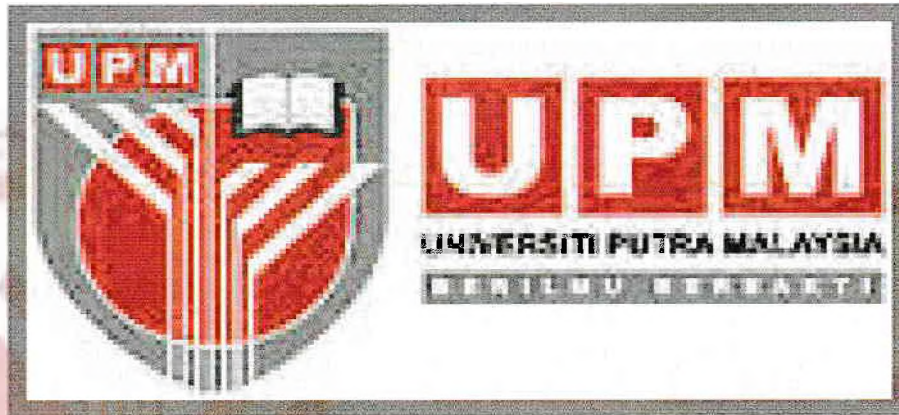

During 3 months me working at Taman Pertanian Universiti Bintulu, i am get to many new experiences which are very valuable for me to learn and carry out when I face the real world of working in the future. That must have with me and set in my mind because after i am done with my practical training i move one step to the real working. We will know how to adapt and communicate with other people who are on the same field as we are or with those who will work as a team with us.

Lastly, to those whose is involved directly or indirectly by helping me during my training period, I would like to give my gratitude for having me as their trainee Taman Pertanian Universiti Bintulu. Without the experience, guidance and knowledge that had been shared by them to me, I still depend on my theory and not have any experience before i am done my diploma. I wish god blessing abundantly to all of you.

UNIVERSITY ORGANISATION BACKGROUND

University Putra Malaysia Bintulu Sarawak Campus (UPKB) is not a new name amongst the nation's institutions of higher learning. In fact, it is the oldest campus in Sarawak. The history of University Putra Malaysia Bintulu Sarawak Campus can be traced back to August 10th 1974, when it was a temporary campus under the national Resources Training Centre in Semenggok, Kuching.

The campus was relocated to its permanent site in Bintulu, Sarawak in June, 1987. On 27th August, 1987, University Pertanian Malaysia Sarawak was officially established as a branch campus through the under 3 centres of learning - Applied sciences and social sciences and management.

Three diploma level programs were on offer; the Diploma in Agriculture, Diploma in Forestry and Diploma in Agribusiness programs, as well as an initiation program.

UPM was closed temporarily in 1992 and was operational again in November 2001, based on UPM 2001-2010 third strategic plan which was to upgrade UPM into an international center for agriculture, bioresource studies and services. UPMKB's main focus is in agribio fields such as agriculture, forestry, fishery, livestock, food and environment.

UPMKB is situated just 13 km from the town of Bintulu. It is 715.16 hectares, and surrounded by lush green forest rich in many different type of flora and fauna. Its modern facilities can house up to 2,200 students.

Conclusion

After three month i'am follow the industry training, many thing me learn, not only at the subject me study at the class but i also learn about how the real life before me done for the diploma. Many experience i get from this training for example at the university putra Malaysia, campus bintulu the all the staff teach how to find the best work for one day if me done study. They also beat looking for their own work such as business.

From the industry training, me also meet the new friends and from this me know communication is very important when we going to other place. If we not good in the communication from to each other we don't have any friends.

I would like to recommendation for the practical organization, from the hostel, me hope they not give the higher fee for the practical student because they don't have money to pay and they also don't have the allowances, we not be able to pay RM15 per day.

For my faculty i hope my junior try to practical at this place because so many experience can get from there. That very different between study in class and the real we doing the work at the same time they teach what we a doing.

Lastly to all lecture and all staff at my practical training your support are much appreciated. Thank you.
