IPSiS Effective Postgraduate Supervision

24-25 FEBRUARI 2025 – EPS ILD ENSTEK

4-5 JUN 2025 – EPS ILD ENSTEK

Empowering Excellence in Postgraduate Supervision

The IPSiS Effective Postgraduate Supervision initiative is designed to equip faculty members with the essential knowledge, advanced skills, and contemporary best practices necessary to mentor and guide postgraduate students effectively. This initiative underscores the importance of cultivating academic excellence through informed and ethical supervision.

A key focus of the program is the ongoing professional development of supervisors, enabling them to stay abreast of emerging academic trends, innovative research methodologies, and evolving supervisory expectations. Continuous learning ensures supervisors can offer relevant, forward-thinking guidance in today's dynamic research landscape.

The initiative also addresses the core roles and responsibilities of academic supervisors, with an emphasis on maintaining academic integrity and ensuring compliance with institutional policies and procedures. These elements are fundamental to fostering a supportive, transparent, and responsible postgraduate research environment. Ultimately, the program offers a transformative experience for supervisors enhancing their capacity to inspire, support, and shape the next generation of scholars.
