# 2025 ETAC PROVISIONAL ACCREDITATION VISIT EC240

The Faculty of Civil Engineering, Universiti Teknologi MARA (UiTM) Shah Alam successfully hosted the ETAC Provisional Accreditation Visit for the Bachelor of Civil Engineering Technology (Railway Infrastructure) with Honours on 18 September 2025.

This programme, launched in October 2024, has demonstrated strong early progress with three cohorts enrolled to date, and the next student intake scheduled for Mac 2026. A key distinguishing feature of the programme is the Work-Based Learning (WBL) component in Semester 6, which provides students with structured, hands-on, real-world experience within the railway industry, ensuring close alignment between academic delivery and industry

The accreditation visit represents a significant milestone for the Faculty, reflecting its continuous commitment to quality assurance, international benchmarking, and outcome-based education. It further underscores the Faculty's strategic role in producing competent, industry-ready engineering technologists to support the development and sustainability of the rail infrastructure sector.

The Faculty of Civil Engineering remains committed to advancing this programme towards full accreditation, reinforcing UiTM's mission in strengthening the pipeline of future-ready talent for the national and regional engineering landscape.
