STRATEGIC BENCHMARKING AND PROMOTION: ELEVATING OUR CIVIL ENGINEERING TECHNOLOGY PROGRAM

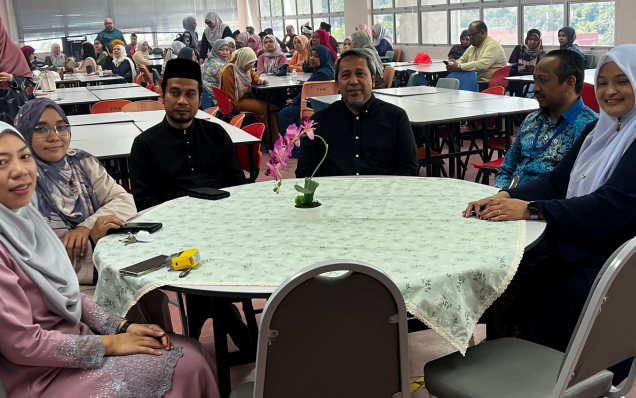

The School of Civil Engineering conducted a successful benchmarking visit to UniMAP to enhance the Bachelor of Engineering Technology (B.Eng. Tech) program. The visit included engagements with UniMAP's management to discuss strategic goals and quality assurance processes, reviews of their robust curriculum and effective industry partnerships, and tours of their state-of-the-art facilities. These insights will be instrumental in adopting best practices, strengthening industry collaborations, and continuously updating the curriculum to meet market needs.

Additionally, the new Bachelor of Civil Engineering Technology (Infrastructure Rail) with Honours programme was promoted at Kolej Matrikulasi Kedah and Kolej Matrikulasi Kejuruteraan Kedah. We successfully raised awareness through detailed presentations, interactive Q&A sessions, and the distribution of promotional materials, which in turn generated significant interest among students. Faculty members were supportive, indicating potential for future collaborations. The visit was highly productive, setting the stage for increased student applications and enhanced academic partnerships.

MAJLIS KESYUKURAN : EAC 2024

On May 10th, 2024, Majlis Kesyukuran School of Civil Engineering was held. This event was organized to mark the completion of the Engineering Accreditation Visit (EAC) conducted on April 24th-25th, 2024. A Hari Raya feast was also held together. It was to express gratitude to all staff for their cooperation during the visit. The uniqueness of this event lies in the variety of delicious dishes brought by each staff member. May the ukhuwah among the staff endure forever.
