Universiti Teknologi MARA (UiTM) ranks 136 in the inaugural Times Higher Education (THE) Interdisciplinary Science Rankings 2025

BERITA UTAMA GRU2025

21/11/2024 / RANKING UiTM

The graphic features a blue and purple gradient background with a faint cityscape. At the top, it includes logos for UiTM's 25th anniversary (1999-2024), the university's name in Malay and English, and THE Times Higher Education. The central text reads 'Congratulations UiTM!' in a large, stylized font. Below this, it states 'Interdisciplinary Science Rankings' powered by THE, and 'In association with SCHMIDT SCIENCE FELLOWS'. A prominent yellow box displays 'Ranked = 136'. At the bottom, it notes 'Out of 749 universities in the inaugural Times Higher Education ISR 2025' and lists the ranking criteria: Inputs (funding), Process (success, facilities, administrative support, and promotion), and Outputs (publications, research quality, and reputation). The footer contains the UiTM logo and the slogan 'UiTM di hatiku' in Malay and Arabic script.

SHAH ALAM, 21 November 2024 – UiTM has demonstrated strong fundamentals in fostering interdisciplinary research and collaboration, earning its position at 136 in the first edition of the Interdisciplinary Science Rankings (ISR), announced on November 21, 2024. This ranking, launched in association with Schmidt Science Fellows, measures universities' contributions and commitment to interdisciplinary science.

The ISR 2025 focuses on science disciplines within the high-level subjects of computer science, engineering, life sciences, and physical sciences. A total of 749 universities from 92 countries and territories are included, reflecting the consensus that global challenges require insights from various scholarly fields.

The ISR methodology consists of three pillars: inputs, process, and outputs – each divided into 11 metrics. Data for these rankings is collected directly from universities, validated by THE, and includes quantitative and evidence data. Bibliometric data from Elsevier, covering over 157 million citations to 18 million publications, is also utilised.

UiTM's ranking achievement highlights its culture of collaboration within its academic community and with external partners, fostering an environment where interdisciplinary research thrives. This collaborative spirit is essential for driving scientific and technological advancements. UiTM's commitment to integrating knowledge from multiple scientific disciplines positions it as a leading institution in Malaysia, excelling in teaching and pioneering interdisciplinary research. This dual strength underscores UiTM's role as a key player in the global academic and research landscape.
