ACKNOWLEDGEMENT

Thanks to all mighty Allah who gave me courage to complete this project paper. Peace and blessings of Allah be upon His Messenger Muhammad (S.A.W).

First of all I would like to show my gratitude to my respectable advisor Puan Noorazlina Binti Ahmad who guided me. Special thanks to Puan Sakinah binti Mat Zin who helped me in writing this paper. Without their assistance, this project paper would never be completed. Thank you for your precious guidance and assistance.

Not to forget my special thank goes to my practical training supervisor Encik Mohd Fauzi Bin Saliman, En Faizal Herman Shah Bin Hassan, Puan Rozaina Binti Jamaludin and all staff of MARA who support and give opportunity for me to get experience along the practical training at Headquarters of MARA for five months.

My thanks and gratitude also goes to my respective examiner, Ustazah Wan Noor Hazlina Binti Wan Jusoh who had examined my project paper. Further I would like to thank my parent for assistance, support, and who always pray for my success in life.

I also highly thankful to all my friends for helping and support me in completing this project paper. Special thank also goes to all the respondents who are involved and give full cooperation in this research. And, whomever that involved in this research, thank you very much.

ABSTRACT

This research was conducted to study the relationship between the roles of government agencies and the development of Bumiputera entrepreneurs of agro-based product. The objective of this research is to identify the relationship between the roles of MARA, FAMA and LPP and the development of entrepreneur. This study also was conducted to know which role give high impact to the entrepreneurs. Finally, the purpose of this study is to recommend about the effective way that can be done by government agencies to support entrepreneurs. The researcher had distributed the questionnaire among 100 SME entrepreneurs in Kuala Lipis, Pahang. Islamic financing, training and subsidies are the independent variables that being selected by the researcher. After collecting the data and analyse it, the result shows that there is relationship between the independent variables and the dependent variable. The finding also shows that the most important role is subsidies and most of the respondents agree that there is strong relationship between the subsidies and the development of Bumiputera entrepreneurs. By conducting this research, all and wide, the researcher hopes that government agencies will polish up their services in order to make sure that the entrepreneurs have ability to increase their production and income.
