ACKNOWLEDGEMENTS

Praise to Allah S.W.T for the blessing and grace that has been given to us to successfully accomplish this industrial training.

First and foremost, I would like to express my gratitude towards the 'Pen. Pegawai Pertanian Kanan of Department of Agriculture Tawau, Mr. Jupri Demabela because of giving me a great working experience and also to all staffs that involve directly or indirectly throughout the industrial training.

Lot of thanks also go to Coordinator of Industrial Training Mr. Hamjah Rusli because of his effort in getting places for industrial training and for the advice and guidance during the training.

I want to express my special thanks to my family that has always given support to us both spiritually and financially throughout our course of study.

Special thanks also go to my friends who have helped us directly and indirectly to complete this report. Thank you very much.

BACKGROUND

Sabah Agriculture Department has formally existed as a distinct entity since November, 1946. Initially, the Department of Agriculture, Sabah is also responsible for the affairs of animal husbandry and fishery enterprises. After Sabah gained independence, a number of separate departments and agencies have been established under the Ministry of Agriculture and Food Industry to address other areas, and certain aspects relating to the development of the crop. Currently, the Department of Agriculture, Sabah is among the departments and agencies under this Ministry.

VISION AND MISSION

Department of agriculture have two vision that include sector vision and organization vision.

Sector vision of Department of Agriculture Sabah is developed and organized plants and involves commercial-class entrepreneurs who produce agricultural products of export competitive and quality of food commodities to meet domestic demand.

Organization vision Department of Agriculture Sabah is be a leader and major contributor of agricultural technologies and services in Sabah.

Mission of Department of Agriculture Sabah is Produce, prepare and disseminate technology and provide quality services that satisfy customer agriculture and the environment to the operators of agricultural crops for the development of a structured, competitive and sustainable in the State.
