

RESEARCH

INNOVATION

AT PLANETARY HEALTH 2026

By Ms Siti Mardhiyah Razali and Ms Afiqah Mohammad on behalf of the *Pharmacy Postgraduate Students Committee*

TRANSFORMING RESEARCH

The Faculty of Pharmacy, Universiti Teknologi MARA (UiTM), proudly participated in Planetary Health 2026, held on 27 June 2026 at AEON Mall Shah Alam. Organised by the Institute of Postgraduate Studies (IPSis), the event served as a postgraduate education fair that brought together academia, industry, and the community to promote health, sustainability, and environmental stewardship.

Representing the Faculty of Pharmacy were four postgraduate students: Muhammad Amirul Adli, Siti Mardhiyah Razali, Mohd Radzi Ab. Aziz, and Afiqah Mohammad, who showcased their research, highlighting the important role of pharmaceutical sciences in advancing planetary health and sustainable healthcare.

ACADEMIA . INDUSTRY . COMMUNITY**27 June 2026, AEON Mall Shah Alam****PROMOTING HEALTH, SUSTAINABILITY,
AND ENVIRONMENTAL STEWARDSHIP**

The Faculty's exhibition featured innovative research themes

The Faculty's exhibition featured four innovative research themes: sustainable pharmaceutical waste management, the environmental impact of drug pollution, the application of artificial intelligence (AI) and machine learning in predicting medication management during disasters, and the development of natural product-based creams for diabetic wound healing. Through interactive displays and engaging discussions, visitors gained valuable insights into how pharmaceutical research can contribute to addressing emerging environmental and public health challenges.

The event provided an excellent platform for the faculty to demonstrate its commitment to research excellence, innovation, and community engagement. By translating research into practical and sustainable solutions, the Faculty continues to contribute meaningfully towards building a healthier population and a more sustainable future.

Guided by Excellence

The Faculty also extends its sincere appreciation to the project supervisors: Dr Hisyam Abd. Hamid, Assoc. Prof. Dr. Rozaini Zohdi, Dr Siti Alwani Ariffin, and Assoc. Prof. Dr Fazlin Fauzi, for their invaluable guidance and moral support in the preparation of the exhibition materials. Their dedication, encouragement, and mentorship were instrumental in the successful presentation of the faculty's research showcase at Planetary Health 2026.
