

**REPORT ON INDUSTRIAL TRAINING AT
IOI CORPORATION (SYARIMO 4 ESTATE)
KOTA KINABATANGAN**

GUNAWAN BIN ROSMEN

**DIPLOMA IN PLANTING INDUSTRY MANAGEMENT
FACULTY OF PLANTATION AND AGROTECHNOLOGY
UNIVERSITY TEKNOLOGY MARA**

SEPTEMBER 2013

ACKNOWLEDGEMENTS

Praise to God because of the blessing and grace that has been given to me to successfully accomplish this industrial training.

First I indebted to our AGR 390 lecturer Mr. Hamjah bin Rusli from University Technology Mara, who has help me a lot in the completion of our industrial training, without his initiative and exceptional patience of guiding us this report would not have been prepared. I would like to thank his for invaluable advice and cooperation.

Second, I would like to express my gratitude towards the manager of VERY GOOD ESTATE, SYARIMO 4 Estate, Mr. Hj. Muhammad bin Hj. Singah because of giving us a great working experience and also to all staffs at involve directly and indirectly throughout the industrial training. Most importantly to my guidance Mr. Mohd Darwis (assistant manager), Mr. Recky Jovleeson Salanjik (cadet assistant) and Mr. jamil (cadet assistant) who gave most of their time observing me and teach me a lot during industrial training. Thank you very much.

Then Thanks to my faculty coordinator, Dr. Hendry Joseph and the entire lecturer for teaching me here in UiTM Kota Kinabalu, Sabah

Lastly I want to express my special thanks to our family that has always given support to us both spiritually and financially throughout our course of study.

Not forgot, my friends Sitti Raihana Bazilah and Nurul Izfahanie who help me during this industrial training. Hopefully, this practical will be the best think we have together. Thank you

1.0 INTRODUCTION

As a students in our program need to complete 6 semesters in 3 years and pass all the courses, subjects and examinations in this program during that time in order to obtain the diploma certificate in Planting Industry Management.

One of the courses in this program that is compulsory to every student in part six is Industrial Training which is need to complete at the end of semester (semester 6) at the agency that have been chosen by the students.

Diploma in Planting Industry Management or shortly known as DPIM was introduced in UiTM Sabah Branch.

The training last long about 14 weeks and within that period, students must study and gather much information about how the agencies manage their field to the production of yield.

This industrial training is held in order to give an early exposure to the student about the real situation in planting industry management field when they work after they graduated. It also helps student to prepare on how to face and solve the problems and challenges in this field. At the same time, it is hoped that all the experiences that obtained by every students will be used later and be practiced after graduate.
