ACKNOWLEDGEMENTS

First of all, we want to praise to the god for the health and strength that we received during all the time on our practical days for 5 weeks at Department of Agriculture Ranau. We also want to thank to Sir Hafezan as he is our lecture for this course and manage us to present for this course. Not to forget Dr. Viduriati binti Sumin as our supervisor in this faculty that helped us a lot for finishing this final report and also our supervisor at the Department of Agriculture Ranau, Pn. Rozilah Saimin the Assistant Agricultur Officer for arranging our schedule during the internship. Last but not least, we also want to say thank you to all lecture that help and teach us a lot from semester 1 until semester 5 that we able to practice what we learn in the agency. We hope that after this, we can become more mature about work and we can use this experience s as our strength to find good work or to continue our study to be better person and learn more. We really felt happy to be able to finish this task given on time.

1.0 INTRODUCTION

1.1 DEPARTMENT BACKGROUND

Department of Agriculture has been established in year 1905 and responsible to implement the agricultural policies that have been outlined by the government. In accordance with the establishment of department of agriculture in 1974, each state has given the responsibility to implement the expansion program to promote the smallholder sector. In 1957, the agricultural department has grown rapidly and it is fully engaged in research, provide development services, marketing and the development of farming organizations. However, with the establishment of Federal Agricultural Marketing Authority (FAMA) 1965, Malaysian Agricultural Research and Development Institute (MARDI) 1970, Farmers' Organization Authority (LPP) 1973, the agricultural department has been restructured and focusing its role in providing development services especially to the farmers.

1.1.2 Vision and Mission

Sector vision

The farming sector is advanced and orderly and involves commercial-level entrepreneurs who produce export-oriented agricultural products as well as quality food commodities that can meet domestic demand.

Organization vision

Be the leader and major contributor to agricultural technology and services in the State of Sabah

Mission

To produce, provide and channel technology and provide quality, customer-friendly agriculture services to entrepreneurs for sustainable, sustainable and sustainable agriculture development in Sabah.

1.1.3 Sabah agriculture departments

Currently, agriculture department in Sabah divided into 44 departments (Table 1.1) and specialized to 26 categories of sub-station. This include 4 Research Station, 6 Training Centre, 1 Institute of Agriculture Sabah, 2 Paddy Seed Production Centre, 1 Coconut Station, 1 Agricultural Development Section, 1 Paddy mechanism Section, 1 Agricultural Trial Station, 1 Sabah Agriculture Park.
