ACKNOWLEDGEMENT

As a student Diploma in Plantation and Agriculture Technology, we have to complete and submit our industrial training report for this subject which is FPA210. This subject must be taken by student of Diploma In plantation and agriculture technology during semester break of semester 2 and 4. The reason for this subject is to ensure that the students to obtain more knowledge in the field of practical. we also will know how to introduce some of the basic techniques and tools that can be used by future executive office in managing their estate. All knowledge obtained can be used in our future life

First of all, we would like to thank God for all of His blessings. Because of the blessings of our God, we will be able to complete this industrial training report. We are able to complete everything despite all the challenges during the practical. not only that, we also would like to express our gratitude to Miss Saiyidah Raffhanah Bt Basri, our Faculty Representative (Industrial Training) for the guidance throughout preparing for this industrial training report. Without her help, we might not be able to finish this report successfully.

Next, we also would like thanks to our families and friends for all the ideas shared and all the morale support during making this report. Besides that, we would like to thanks to all executives, staffs and workers of Unit Ladang UiTM Kampus Samarahan 1 for the guideness and giving cooperating with us. All the data collected, forms and other appendices were from them. Without them, we could not finish our report on time.

Last but not least, a lots of thanks to all team members for the great commitment and cooperation given during preparing this report. Without the coordinated team work, we will not be able to complete and submit this report on the given duration of time. Hopefully all the efforts will run smoothly.

INTRODUCTION TO UNIT LADANG

UiTM KAMPUS SAMARAHAN 1

UNIT LADANG UiTM KOTA SAMARAHAN

This unit was established to provide agricultural learning and research facilities to lecturers and students of Diploma In Plantation Management (DPIM) which has been started since the session of December 1999 to April 2000. While this unit has been in operation since the end of 2000, its main function is to provide support for lecturers and students of dpim program undergo practical training, practical and agricultural research. This unit has grown and progressed step by step in line with the increasing age of the DPIM Program until now the Unit has opened about 50 acres of plot demonstration planted with all the plants found in the Program syllabus. Hopefully in the future this Unit will be more robust and able to help UiTM produce experienced, knowledgeable and experienced graduates to become agents of change to the outside community especially local communities in addition to generating Sarawak's UiTM income through the agricultural activities to be carried out.

Agricultural project

Our first plot was Project site. This project site handle by the supervisor named, sir Noorsidek bin Dali. This project site involve herbs garden and hydroponic site. This plot also known as plot 4.
