MATRIX NO. : 2013620984

**LOCATION : Malaysian Rubber Board, RRIM Research Station, Lot 11, Block1,
Lavang Land District Km 68, Jalan Bintulu-Miri, 97000
Similajau, Bintulu, Sarawak.**

ACKNOWLEDGEMENTS

First and foremost, we would like to express our thanks to God because of His love and strength that He has given to us to finish our internship report. We know that there are still many lacks of arranging this report even when doing our job training and we thank to those who have supported us to perform the job training up to carrying out this report. Hereby, we want to give our special thanks to Malaysian Rubber Board for give us opportunity to learn and get the real work experience.

Next, a big thanks and appreciation to the manager of RRIM Research Station Similajau, Mr. Salihin Bin Sekot for giving us a chance to broaden and gaining more knowledge and experience as a trainee. We have been learned a lot about rubber management.

We are fully appreciated to the Research Assistant, Mr. Thomas anak Ninggang, Mr. Mohd Ashraf Bin Ramli and others for a lot of guidance and share their experiences on the conduct of rubber tree to us from starting the practical until the end of our practical. Not forgotten to thank all of RRIM Research Station staff especially Madam Siti anak Awang for teaching us how to do some administration works.

Besides that, we would like to express the deepest appreciation to our lecturer, Mr. Muhammad Syukrie Bin Haji Abu Talip for advice, knowledge and giving us a chance to do our internship for three month to improve our performance and gain more experience before we complete our Diploma in Planting Industry Management.

Last but not least, special thanks to all my friends for give their fully support and commitment as a team throughout the course of completing the internship program. We also not to forget to our family for their support, advice and encouragement during our practical as SPS. Thank you.

1.0 ORGANISATION BACKGROUND

1.1 Malaysian Rubber Board (MRB)

Figure 1.1 Malaysian Rubber Board Logo

The Malaysian Rubber Board (MRB) is the custodian of the rubber industry in Malaysia. It was established on 1st January 1998, it has under its fold there well establish agencies (RRIM, MRRDB and MRELB), which are now merged into one, which have contributed significantly to development of the rubber industry for the last 78 years. The R & D excellence in Natural Rubber, accomplished by the rubber Research Institute of Malaysia (RRIM), has had an impact on the Malaysian NR producing countries.

The primary objective of MRB is to assist in the development and modernization of Malaysian rubber industry in all aspects from cultivation of the rubber tree, the extraction and the processing of its raw rubber, the manufacture of rubber products and the marketing of rubber and rubber products.

Mission

To enhance the competitiveness and viability of the Malaysian rubber industries in the global environment through focused research and development, effective transfer of technology and quality support services.

Vision

To be a leading organisation in all area of the rubber industry for the benefits of society.
