1.0 ACKNOWLEDGE

First of all, I would say thanks to my parents, all lecture, all staff at farm and my fallow friends and I don't forget to fell glad for god because for all his blessing and grace because without all this just I mention, maybe I am not able to complete all this 6 week industrial training and final report in the given period of time. Apart of that, I would like to express my gratitude to Madam Saiyidah Raffhanah bt. Basri as our Faculty Representative (Industrial Training II) and Mister Muhammad Syukrie Bin Abu Talib as our FPA 210 (Industrial Training II) supervisors lecturer for guidance throughout preparing for this industrial training such as give us information about this industrial training and help us to register for this training at uitm kota samarahan. Other than that, help us to register to get kolej at Uitm Kota Samarahan. But in the meantime, we manage to complete our lesson and complete the training without any problems with helps from our lecturers.

Instead of that, I also want to express appreciation to all staff and manager of Unit Ladang Kota Samarahan, Mister Mohamad Farizan Jamil, Mister Basri Pawi (penolong kanan pertanian), Mister Noorsidek Dali (penolong pengurus ladang kanan), Madam Sharifah Zuraini Wan Chie (penolong pegawai pertanian) and Madam Nurul Huda (penolong pengurus ladang kanan) for giving us opportunity to learn something new and giving good cooperation during the practical while it was still on going in their Unit Ladang. The greatest experiences are we provided with pleasant hospitality and facility for us along these 6 weeks of industrial training.

Last but not least, I also want to thanks to those whose involve directly or indirectly for helping me especially to family and friends. I really appreciate all of the supports. Thanks also to all team members for great commitment and cooperation that given for these 6 weeks of practical. Without the coordinate and team work, I will not be able to finish my practical and submit my final report. Hopefully, all of the effort spent on this practical will worth all of the swear and tiredness.

INTRODUCTION OF INDUSTRIAL TRAINING II

2.1 INTRODUCTION

As a requirement report for the semester 3 of Diploma in Planting Industry Management from Faculty of Plantation and Agrotechnology. I am required to complete and submit the final industry report which is for subject FPA 210. FPA 210, is a core subject that must be done by all of Diploma Planting Industry and Management student during end of semester 3 for a month. This practical help students to be able to obtain knowledge and exposures in the field, nursery and landscaping. The greatest experiences are student may be able how to manage the new planting techniques that can be used in farm or small garden.

All of the knowledge obtained in the midst of preparing this, student can face the complex and challenging in business worlds when we are already graduated. Lastly, the marks for this practical will be observed and conducted through students final report.

2.2 OBJECTIVES

The main objectives of industrial Training II are:

- I. To gain more knowledge of working under government and private company.
- II. To practically done agricultural activities on field.
- III. To help solidifies student to be more confident.
- IV. To improve soft and hard skill.
- V. To improve communication and management skill.
- VI. To prepare physical and mental for student face the working environment.

DEPARTMENT OF UNIT LADANG KAMPUS SAMARAHAN

3.1 BACKGROUND

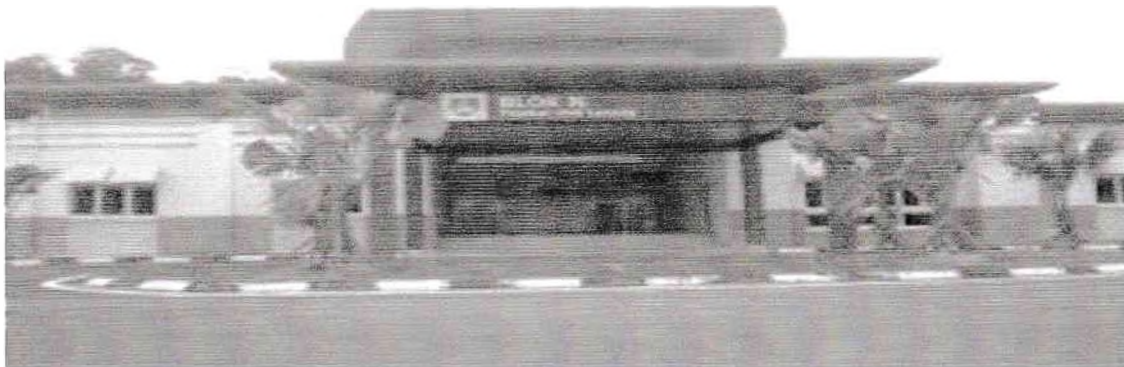

FIGURE 1:UNIT LADANG UiTM KAMPUS SAMARAHAN

This establishment was specifically set up to serve as an educational and research hub for lecturers and students enrolled in the agriculture program which are Faculty of Plantation and Management (FPA) student either it Diploma or bachelor's degree student. Presently, the Unit Ladang boasts an impressive expanse of approximately 50 acres, with meticulously cultivated demonstration plots featuring a diverse range of plants incorporated within the program's syllabus. Looking ahead, the Unit Ladang aspires to fortify its position and contribute even more significantly to UiTM's mission of producing capable, knowledgeable, and skilled graduates. These graduates, in turn, will serve as catalysts for positive change within their respective communities, particularly the local populace. Additionally, the agricultural activities undertaken by the Unit Ladang hold the potential to generate income for UiTM, thereby benefiting the institution and the Sarawak region. Moreover, the Farm Management Unit has actively organized various workshops and programs to supplement its core functions. For instance, they conducted the Farm Management Unit Initiative Planning Workshop on April 29, 2021. This workshop aimed to foster strategic planning and enhance the Unit's operational effectiveness. Another notable program, titled "Pick and Pick," was successfully organized by the Farm Management Unit on March 9, 2021. This initiative provided participants with hands-on experience in harvesting crops, highlighting the practical aspects of agricultural management. Furthermore, the Unit Ladang undertook an insightful Official Visit to Livestock Farmers and Kelulut Honey Processing in Lundu,
