APPRECIATION / DEDICATIONS

Firstly, thanks to the almighty for His Grace, I Mohamad Sahrol Riza Bin Ramzy (2020606716) UiTM Campus Mukah Sarawak student following a course in Diploma Planting Industry Management (DPIM) have successfully completed the Industry Training in Hydroflow Sdn Bhd for 6 weeks.

I would like to show my gratitude to our Faculty Representative (Industrial Training) lecturer, Madam Saiyidah Raffhanah binti Basri, for giving me the opportunity to undergo industrial training and for her invaluable assistance during this trip. She assisted us by defining what we needed for the industrial training such as preparing important documents and a list of student names for the practical.

My grateful thanks to TH Plantation Berhad for giving me the opportunity to carry out my industrial training in Hydroflow Sdn Bhd. This is the great place for industrial training as ones could gained more working experience and knowledge from experienced supervisor and the facilities provided are very adequate.

Moreover, millions of thanks to the Manager, Tuan Mohadzari Bin Johari and his Assistant Manager, Tuan Jeffery Anak Bana for their guidance and advice during my internship programme at Hydroflow Sdn Bhd. They helped me a lot in learning how the planting industry worked.

With this I would like to give a lot of thanks to my mother, Mrs. Kamisiyah Binti Jeraiee for all the dua, support and always being there when I need them.

Finally, thanks to everyone who helped me a lot in completing my industrial training especially my friends and the workers of Hydroflow SDN Bhd. These people deserve huge thanks for tagging along during the report writing process and throughout the internship programme.

INTRODUCTION.

INDUSTRIAL TRAINING DEFINITION.

Industrial training or internship is the process on-the-job training which particularly beneficial for every student to experience a real work experience. UiTM Campus Mukah Sarawak provides this glorious opportunity for students having an internship programme within their diploma studies.

Internship helps empowering the competencies required in order to enhance the graduate's ability to work. Through industrial training programme, students will be expose to the real working environment. it helps student to learn and gain more knowledge in order to improve their working skill.

As a partial fulfilment of the requirement for diploma studies, every student must undergo this industrial training programme within not more than 20 weeks in company that they had choose.

INDUSTRIAL TRAINING OBJECTIVE.

Industrial Training objectives are to expose students to a real work environment experience and learn what they should do in order to complete their job. This will help the students to prepare mentally and physically so that they will easily adapt with the situation. From the Industrial training, the student will develop skills in work ethics, communication, time management and others. This is the important component for the implementation of industrial training for students in order to become a great employee. The objectives:

- i. To expose you to a particular job or profession in industry. While you might have an idea about what a job is like, you would not know until you perform it.
- ii. You will have the opportunity to excel and possibly land a job with the company. Employers have an easier time hiring a person they know because they can get a feel for that person's work ethic, skills, creativity, ability to work with others and overall fit with a company.
- iii. Developing business contacts. These people can help you find a job later, act as references or help you with projects after you are hired somewhere else.

IMPORTANCE OF INDUSTRIAL TRAINING.

Industrial training is important to the students in many aspects because it is a platform where students can gain experience and knowledge during their training session. This industrial training is an opportunity for [REDACTED] students to prepare themselves before entering a real working environment.

The importance of Industrial Training is:

- I. To develop individual personalities.
- II. To learn how to communicate better and more effectively.
- III. To adopt ethics and rules of good work.
- IV. To provide exposure to real world job.
- V. To generate reports to better industries
- VI. To practice safety rules in the industry.
