ACKNOWLEDGEMENT

First and foremost, I am very grateful to The Almighty God for establishing me in completing the industrial training at Setuan Plantation Sdn. Bhd. for 6 weeks successfully and also the assignment which is final report for the FPA 310 (Industrial Training II). Without His blessings I would not be able to complete this task on time.

I would also want to thank everyone who put in the additional effort to assist me doing this final report, especially our beloved lecturer for subject code FPA 310, Sir Syukrie Bin Haji Abu Talip, who guided me throughout the task. Apart from that, I would want to express my gratitude to my comrades in arms for their assistance and cooperation in completing this task successfully.

Lastly, this speech is also directed for everyone who was directly or indirectly engaged in the task's achievement especially to my classmates and friends. All of their assistance is very appreciated, since all of these tasks would be difficult to do without their assistance and support.

INTRODUCTION

Industrial Training II FPA 310 is a compulsory subject to be taken by every student from the Diploma In Planting Industry Management (DPIM) in semester 5. This subject is intended to provide an opportunity for all DPIM students to carry out industrial training in companies related to the plantation industry. Each student is also free to choose a suitable place for them to carry out the industrial training.

The subject FPA 310 also can enables student to sharpen their skills and feeding their interest into gaining more knowledge about plantation, to ensure that they are equipped with adequate knowledge before entering the work life in the agriculture sector. With the knowledge that have been gained by the student through the subjects that they have learnt throughout their first four semester can be applied as they carried out their training. Besides knowing the theory of various techniques, the students can implement their understanding on the theories as their trainers guide them to ensure that they are executing the techniques appropriately and precisely to avoid unnecessary injuries or circumstances that could potentially cause harm to the students. In addition, I have also carried out industrial training at Setuan Plantation Estate for 6 weeks starting from 15/8/2022 until 23/9/2022.
