ACKNOWLEDGEMENT

Assalamualaikum w.b.t, first of all, I would like to thank Allah s.w.t for all of His blessing for giving me strength to complete this industrial training report. Apart from that, I would like to express my appreciation to Mr. Muhamad Syukrie bin Abu Talip, as our Course Coordinator for giving all guidance throughout preparing this industrial report. He has a lot of experience in the field of agriculture and without his help, we might not be able to finish this report successfully.

Besides, I would like to express my thankfulness to my families and friends for their support and ideas shared throughout the preparation of this industrial training report. I would like to express our gratefulness to all executives, staffs and workers of Solar Green Sdn Bhd Petian Estate for giving cooperation and data for me to complete my industrial training report.

As a semester 6 students of Faculty Plantation and Agrotechnology, we are required to complete and submit our industrial training report for the subject of AGR390 (Industrial Training). The subject AGR390 Industrial Training must be taken by all students of MARA University of Technology (UiTM) in order to ensure that the students are able to obtain knowledge and exposures in the field of practical as well as to introduce some of the basic techniques and tools that can be used by future executive office in managing their estate .All knowledge obtained in the midst of preparing this can be used by the students to face the complex and challenging business world when they have graduated.

Last but not least, I would like to give millions thankfulness to my team members for being cooperate with me during overcome all the problems and difficulties during this industrial training. Without their cooperation, this industrial report might be unable to complete and submit the report on the given duration of time.

INTRODUCTION OF TRADEWINDS PLANTATION BERHAD (TPB)

Tradewinds Plantation Berhad is one of the largest oil palm and rubber plantation companies in Malaysia. The company is poised to become a global leader in integrated agribusiness as it moves forward into a new and dynamic phase of development in the coming years.

Our company can trace its roots back to 1995 when our plantations were managed by TPSSB. On 25 May 2004, Tradewinds (M) Berhad which is our current Holding Company, announced the proposed merger involving fourteen of Tradewinds (M) Berhad's plantation subsidiary companies with Johore Tenggara Oil Palm Berhad (JTOP). Hence, on 04 October 2005, Tradewinds Plantation Berhad (TPB) was established and the proposed merger was completed about a year later. Pursuant to the merger, the listing status of JTOP was transferred to Tradewinds Plantation Berhad, which made its debut listing on the Main Board of Bursa Malaysia on 15 March 2006. Tradewinds Plantation Berhad was delisted in 2013 but remains as one of the largest oil palm and rubber plantation companies in Malaysia.

Berhad will remain steadfast on investing in new landbanks, including plantation development and strategic acquisitions which will enlarge our plantations operations. This will place our organisation in a more favourable position to realize its fullest and future potential, as well as attaining sustainable growth. Our ongoing efforts will also cover increasing yield, lowering operational costs, mechanisation of plantation operations as well as mill efficiency improvement plans.

The company will be looking into fortifying its mid-stream and downstream operations. We will be setting-up our own refineries and rubber depots, as well as ensuring a robust trading arm, which will bode a healthy and sustainable future for the company.

Tradewinds Plantation Berhad will be placing greater emphasis on research and development efforts, in order to maintain our sustainable operations. This includes exploring new ventures in agribusiness and the oils & fats market segments. In terms of human capital management, we will focus on building new capabilities as well as strengthening the existing core, by empowering our workforce with relevant industry knowledge and skills. It will incorporate innovation towards improving operational efficiency, as well as inculcating a high performance work and safety culture.

Our current strengths, coupled with expansion plans and a forward-looking vision will make Tradewinds Plantations Berhad stronger as we take great leaps ahead towards a better and sustainable future.

VISION

To be the preferred globally competitive integrated agribusiness organization that delivers outstanding value for all.

MISSION

We as a team are committed to achieve our vision by:
