ACKNOWLEDGEMENT

Assalamualaikum, before that I would like to express my gratitude and appreciation to all those who gave me knowledge that I got during this industrial training. As requirement we all student semester 4 in Diploma In Planting Industry Management must take this industrial training that take 1 months to finish. This industrial training must be taken to ensure that student are able to obtain knowledge and exposures in the field of practical as well as to introduce some of the basic techniques and tools that can be used by planters in making their plantation success. From their help, I was able to complete my industrial training with strength and enjoyable.

First, I would like to thanks ALLAH S.W.T for His blessing. Without His blessing and consents, I will not be able to complete this industrial training.

Next I would like to give a special appreciation to Ladang Setuan Plantation Sdn. Bhd for their willingness to accept me to do the internship there. I would like to express special thanks to staff management at Setuan Plantation Tuan Farizal bin Zakaria (Estate Manager), Tuan Ringgir (Senior Assistant Manager), Tuan Rosli (Junior Assistant Manager) Mr. Afiq, Mr. Awang, Mr. Rozlan, Mr. Jelian, Mr. Abdul Rauf and Mr. Febian (Field Supervisors). And also not forgot to mention all of the estate workers from local and Indonesian. This gratitude is for their effort in guiding me all along this internship programme.

Apart from that, I would like to give a special appreciation to Madam Saiyyidah Rafhannah, our faculty representative for the guidance throughout preparing for this internship programme. Other than that I would like to expand my gratitude to my supervisor at Universiti Teknologi Mara (UiTM) Kampus Mukah, Mr Syukri bin Abu Talib for the guidance throughout preparing for this internship report.

Last but not least, I would also like to express my gratitude to my families and friends for all the ideas shared and all the morale support given throughout the preparation of this internship. I would also like to thanks to myself because of my hard work and bare to complete this industrial training successfully. Hopefully, all the effort spent on this report will worth all the sweet.

1.0 INTRODUCTION OF INDUSTRIAL TRAINING

INTRODUCTION

Industrial training is known as a program that offers good practical training in the specified time frame. It is offered by private companies as well as by the government organizations. This will provide them significant skills and motivates them to become a professional. The student surely will gain not only practical knowledge, they also can get to learn more theoretical knowledge too during the training period. It is important to update students' existing skills with industrial so that can help them land better job opportunities.

As requirement students must complete their industrial training within the 6 weeks from 15 August to 22 September. I had opportunity to complete my industrial training at Setuan Plantation Sdn. Bhd which is an oil palm plantation. There, I learned a lot not only about oil palm but entirely estate management. This is a good opportunity for me to undergo some interviews in the future and make me an excellent worker.

1.1 OBJECTIVES OF INDUSTRIAL TRAINING

The aim of industrial training is to expose students to real work of environment experience and to gain knowledge through hands-on observation at the same time. It is well known for industrial training to get the students to develop skills in work ethics, communication, management and others. The objectives of industrial training are:

- To provide students the opportunity to test their interest in a particular career before permanent commitments are made.
- To expose students to real work environment experience gain knowledge in writing report in technical works.
