DTEX CyberOps Training Program 2024: Building a Stronger Cybersecurity Community

5th - 9th August 2024

From August 5th to 9th, 2024, UiTM Cisco Academy, in collaboration with Utechtium, hosted the DTEX CyberOps Training Program at the Cisco Lab, School of Electrical Engineering. The five-day program brought together 20 participants, including Cisco instructors and potential future academies, focusing on key cybersecurity operations such as threat detection, risk mitigation, and incident management. Through hands-on sessions and real-world simulations, the program strengthened the skills of participants and fostered a competitive, innovative cybersecurity community aligned with industry needs.

Empowering the Next Generation of Cisco Instructors: CCNAv7 Training Kicks Off at UiTM PKE

12 - 30th August 2024

UiTM PKE has been appointed as a Cisco Instructor Training Centre to conduct the CCNA instructor training through the Cisco Certified Academy Instructor (CCAI) Program. The course aims to train and certify new instructors to support the continuity of Cisco Networking Academies across Malaysia. Open to PKE staff and other Cisco Academy staff nationwide, the program focuses on:

- Providing exposure to the CCNA Professional course content.
- Training participants for CCNA certification.
- Enhancing PKE's visibility as a hub for professional Cisco courses.
