ACKNOWLEDGEMENT

First and foremost, I would like to thank Sir Muhamad Syukrie bin Haji Abu Talip for teaching me throughout my studies in UiTM, Mukah. I have learnt a lot about plantation and its agrotechnology as well. It gives me a lot of knowledge and benefit to me during my Industrial Training at Pusat Penyelidikan Pembangunan Koko, Kota Samarahan (PPPK Samarahan). He also give me some good and knowledgeable advices on choosing the place for my practical training for Industrial. He has helped me to choose the best organization for Industrial Training.

Secondly, I would like to thank the manager of PPPK Samarahan, Dr. Ahmad Kamil Hj. Mohd Jaafar for accepting my resume to carried out my Industrial Practical in the organization. I want to thank Dr. Ahmad Kamil for giving us a quiz during our internship and because of that, I learnt more about cocoa. The quiz that he has given us is a really good approach for us to better understand about the cocoa beans. It made us to be more alert and also I gain a lot of new information so it is very knowledgeable and benefit for me.

Next, I also would like to thank my supervisors Puan Nurafiza Binti Aman and Encik Anthony Thomas for constantly giving and feeding us with a lot of information about anything that is related to cocoa as well as anything that is related in the field practical. Mostly, I would like to thank Encik Anthony Thomas for always being a good but strict supervisor to my colleague which also includes from the students of Universiti Putra Malaysia Kampus Bintulu (UPM). He teach us a lot about anything and alongside he is not giving up on giving us some of advices. I do appreciate everything he did to me and my colleague. I will not forget about what he has teach us. He teach me to be more independent and responsible if any task is given to me.

Last but not least, I also would like to thank my colleague for always cooperate and give attention to any task that has given to us. We always cooperate when doing a task and have an open mind about giving a suggestion if needed. We helped each other in our own task so I am thankful for having them as my colleague.

CHAPTER 1.

1.1.1 Introduction:

Industrial Training refers to work experience that is relevant to professional development prior to graduation. Industrial training is normally accumulated during the semester break at the end of third or fourth year. Industrial training is an essential component in the development of practical and it is desirable to obtain experience in a various range of activities.

This Industrial Training exposed students to field practical experience and knowledge. Which is required in industry, where these are not taught in the lecture rooms. Next is to used the experience gained from the Industrial Training in discussions held in lecture rooms. It also helps to get a feel of a work environment.

I was placed at the Pusat Pembangunan Penyelidikan Koko, Kota Samarahan (PPPK) which is chosen by the manger, Dr. Ahmad Kamil Hj Mohd Jaafar. I was assist by my supervisors, Encik Anthony Thomas for giving and teaching me throughout my internship. We were divided into 3 groups which consist of 5 members each. In my group, we also have other students beside me from Universiti Teknologi Mara (UiTM) which is students from Universiti Putra Malaysia (UPM).

Below is the location of my practical training:
