FKE: Fostering Electropreneurial Leaders

FKE GOING GLOBAL

Where Exchange Turned into Excellence

1 -5 December 2025

Cavite State University Jr. IECEP proudly supported SCOPE: Strengthening Cross-Border Opportunities for Partnership in Education, a week-long exchange programme held from 1–5 December, bringing Malaysian and Filipino students together through academic collaboration and cultural exchange.

A key highlight was the case analysis presentation on 3 December, where Group 3 (Biosensors) clinched 1st place, followed by Group 4 (Internet of Things) in 2nd place at the CEIT Conference Room. Their creativity and teamwork clearly set them apart.

Beyond the awards, SCOPE strengthened academic partnerships, built lasting connections, and inspired participants to embrace global perspectives.
