ABSTRACT

Grammar learning can be very challenging for many students due to their lack of understanding of the lexical components of the English language. To address this issue, the innovative website Time To English (TTE) is designed to provide learners with a stress-free and efficient medium for mastering grammar. The website offers a comprehensive array of resources, including high-quality lecture video, detailed lecture notes, engaging activity, and a thorough answer key. These materials are specifically tailored to help students grasp the complexities of various grammar elements, particularly the topic of Types of Sentence. By providing such a diverse range of content, TTE ensures that students have access to valuable information and tools to enhance their overall grammar proficiency, making it a highly valuable resource for learners. Beyond grammar, TTE aims to function as a versatile one-stop centre that encompasses a wide range of English language skills in the future.

KEYWORDS: Time To English (TTE), Types of sentence, One-stop centre.

PROBLEM AND OBJECTIVE

The English language connects people through both spoken and written communication and has a significant impact on the development of educational systems worldwide. To understand English effectively, one must learn its lexical components, with grammar being a crucial aspect that ensures correct usage (Kumayas & Lengkoan, 2023). Without grammar, understanding the language can be challenging and may even lead to miscommunication. Many students experience difficulties learning grammar due to their limited knowledge of the language (Ajaj, 2022). They may find it troublesome to grasp every aspect of grammar, and available resources can be limited or hard to access. Some online websites require payment to access full notes, while others are overly packed with information, making it difficult for learners, especially beginners, to comprehend. Therefore, the primary objectives of Time to English (TTE): Types of Sentence innovation are:

1. to offer lecture video on types of sentence to enhance learners' understanding of the topic
2. to supply accessible lecture notes on types of sentence for learners to revise
3. to provide a relevant set of activity and answer key to assess learners' comprehension on the mentioned topic.

DESIGN DESCRIPTION

Time To English (TTE): Types of Sentence innovation offers a unique and user-friendly interface to ensure learners have a positive experience while gaining knowledge. In terms of design, this website employs an engaging colourful theme to grab learners' attention. There are four different sections available: (1) lecture video, (2) lecture notes, (3) activities, and (4)

e-ISBN: 978-967-0033-31-0

answer keys. Each section is crucial for helping learners understand the grammar topic better. Through this website, learners can listen to lectures, review available notes, and assess their understanding of the topic covered. This feature allows learners to identify their weaknesses and gauge their overall grasp of the subject. The website is designed for tertiary-level learners, specifically Diploma in English for Professional Communication students. What makes this website unique is that it does not only make grammar materials, particularly on the topic, Types of Sentence accessible for free but also acts as a one-stop centre which allows learners to explore all related materials in one place.

NOVELTY AND UNIQUENESS

Time To English (TTE): Types of Sentence innovation is unique because it provides easy access to materials needed for grammar learning, complemented by a practical set of activity designed to aid students' comprehension. By compiling all relevant materials needed for grammar learning, this website serves as a comprehensive and informative resource for learners. With its systematic organisation of materials, students will find it easier to understand and navigate the said Grammar topic.

BENEFITS TO MANKIND

The creation of Time To English (TTE): Types of Sentence website is believed to benefit many individuals, especially students seeking easy and convenient sources for learning grammar. Since acquiring grammar skills is considered challenging by many, this website is thought to alleviate the problem by allowing learners to study grammar in a fun way. Not only does this innovation solve problems, but it also promotes a positive environmental impact by making all materials available online. This has significantly reduced unnecessary expenses for learners, who can now access useful grammar knowledge for free. Additionally, the use of an online platform helps preserve the environment by reducing the need for tangible hardcopy materials, which can pose environmental risks.

COMMERCIAL POTENTIAL

Time To English (TTE): Types of Sentence innovation is designed for students who seek to improve their grammar skills, particularly the topic of Types of Sentence. With the shift toward online learning methods post-pandemic, the website is expected to see increased market demand due to its accessible online materials. In terms of competitive advantage, the website stands out because of its holistic approach, integrating various teaching and learning components such as lecture videos, notes, activities, and answer keys for easy reference.

CONCLUSION

In conclusion, Time To English (TTE): Types of Sentence innovation is expected to address the problem of poor grammar acquisition among students. With its engaging features, learners can gain a deeper understanding of grammar. Learning grammar is no longer a hassle, as all

e-ISBN: 978-967-0033-31-0

materials from notes to exercises are available in one place. For future development, the website aims to expand and diversify its content to cater to a broader audience, including instructors and students from primary to tertiary education. This can be achieved through ongoing marketing efforts, such as email campaigns to potential users. Additionally, incorporating interactive features, especially in the activity section, should be considered to enhance learner engagement.
