ACKNOWLEDGMENT

First of all, I would like to express my highest gratitude to Allah s.w.t for His guidance, bless and for giving me the strength to perform my responsibilities as a trainee and completed this industrial training report within the stipulated time.

My grateful thanks goes to the Hariyama Plantation Sdn. Bhd For giving me the opportunity to carry out my industrial training in this agency for 14 weeks period. A big contribution and hard worked from staff during practical period is very great indeed.

The special thank goes to my helpful supervisor, Mr Denis Land Adop. The supervision and support that he gave truly help the progression and smoothness of the industrial training. Not forget, great appreciation go to the rest of Hariyama Estate 2 staff that help me from time to time during the project. The whole program really brought us to appreciate the true value of friendship and respect of each other.

Great deals appreciated go to the contribution of Hariyama Estate 2. My grateful thanks to Mr Muhamad Syukrie Hj. Abu Talip as my lecturer that take responsibility for this industrial training causes he really hard worked to make sure that my industrial training place was accepted. Not forget to my other lecturers that always give support and motivation to undergo this industrial training.

Lastly, to my family and friends that also give me strength and guide to continue my journey as a trainee and complete my industrial training. Thanks you to all of you that involve as direct or indirect to make sure this programme smooth and clear.

CHAPTER 1

INTRODUCTION TO PRACTICAL TRAINING

INTRODUCTION

Practical training or industrial training is a mandatory course for diploma students of planting industry and management. It is a requirement to fulfil the course in order to complete the diploma as well as graduate from the university. The training refers to work experience that a relevant to professional development prior to graduation. For DPIM student, the 14 weeks period is allocated for training at location chosen by student themselves. No restriction is imposed on them whether they want to work in government agencies or private organization.

For this semester, the trainee, Zulhiesyam Bin Fathie (2013686268), has started working in the Hariyama Estate 2 from 30 November 2015 until 6 March 2016.

OBJECTIVE OF PRACTICAL TRAINING

The objective of industrial training areas below:

i. To fulfil the award of diploma of Universiti Teknologi Mara (UiTM)
ii. Apply theories learnt in classroom in working environments
iii. Solidifies students' confidence after graduation
iv. Improve both soft and hand skills
v. improve communication and management skills

REPORT OBJECTIVE

The objective of report industrial training is below:

i. To produce report effectively.
ii. To produce student with high responsibility.
iii. To build self-reliance among students.
iv. To promote on how to write a proper documentation.

ADVANTAGES OF INDUSTRIAL TRAINING

The advantages of industrial training is below:

i. To produce disciplined employees for the future.
ii. To produce skillful employees.
iii. Expand students' knowledge towards their field of studies.
iv. To develop capability to communicate effectively.
v. Awareness for self-improvement.

LOCATION OF PRACTICAL TRAINING

The location of my practical training is at Hariyama Plantation Sdn Bhd Estate2 under Jaya Tiasa Holding Berhad. We has been taught about various new knowledge about the organization and their activity at the estate such as harvesting activity, manuring activity, pest and diseases activity and weeding activity. The duration of our practical training is 14 week from 31 November 2015 until 6 March 2016.

LOCATION OF HARIYAMA ESTATE

The distance of the Hariyama Estate 2 from Sibu town is about 64 Km and takes 2 hour to reach the estate. The estate covers an area 2219.7. This area is peat soil with 5 feet depth.
