HIGHLIGHT

- The Governor of Sarawak Hosts UiTM Sarawak Branch to Strengthen State- Institution Relations
- UiTM Sarawak Pays Courtesy Visit to The Premier Of Sarawak: Driving Agricultural Transformation and Proposing The Establishment of The Tun Openg History and Heritage (TOHHa) Chair
- Strategic Linkage Between UiTM Sarawak Branch and Northern Illinois University (Niu): Driving Global Excellence

Rector's Remark

Professor Dr. Firdaus Abdullah
Rector
UiTM Sarawak Branch

Salam Sejahtera And Warm Greetings To All Readers,

It gives me great pleasure to extend my heartfelt greetings to all readers of the 85th issue of *Infokampus*. This bulletin is more than a repository of news and achievements; it is a living chronicle of UiTM Sarawak's aspirations, our community's resilience, and the collective journey we share as educators, researchers, staff, students, alumni and partners. As we look outward to a world reshaped by global challenges and opportunities, we also look inward to the campus that nurtures talent and where knowledge is converted into impact.

As we open the pages of this issue, I am reminded of the journey that UiTM Cawangan Sarawak has taken together with our community, partners, and stakeholders. This issue comes at a time when we continue to navigate a rapidly evolving global landscape shaped by the lessons of the pandemic and the necessity of forging stronger partnerships at every level of our operations. Each milestone we achieve is not only a testament to our collective commitment to excellence but also a reflection of our responsibility as an institution of higher learning to make meaningful contributions to society, the nation, and theworld. UiTM Sarawak has always stood as more than just a place of learning; it is a living, breathing ecosystem of ideas, cultures, talents, and aspirations.

The past few years have brought unprecedented challenges. The COVID-19 pandemic reshaped the landscape of higher education, from our ways of teaching, learning, and engaging with the community. Yet, here we are in 2025, not only having adapted but having grown stronger, wiser, and more united in our mission. The lessons learned during those difficult times have now been woven into our long-term vision, aligning closely with Malaysia's Post-COVID Development Strategy 2030 and the global aspirations outlined in the United Nations Sustainable Development Goals (SDGs). Our mission is clearer than ever: to equip our students with the skills, values, and vision to thrive in a rapidly changing world, while ensuring that UiTM Sarawak continues to be a driver of sustainable and inclusive development.

As we step into 2025, we remain proud of the legacy and accomplishments recorded in recent years. UiTM Cawangan Sarawak continues to be recognised for its quality education, impactful research, and close engagement with the community. Our position as a trusted partner of the Sarawak State Government, particularly in areas such as digital economy development, smart farming, and talent cultivation, remains central to our identity. In line with the aspirations of the Premier of Sarawak, we are committed to ensuring that UiTM Sarawak is not only a regional centre of excellence but also a globally recognised institution rooted in local relevance. Our past achievements in winning state and national awards, producing high-impact research, and fostering international collaborations are a testament to our capabilities. Most recently, we have successfully advanced to the final stage of the Sarawak State Public Service Quality Award (AKPANS) 2025 under the Statutory Body category. This milestone reaffirms our continuous pursuit of excellence and our commitment to delivering the highest standards in education, research, and service.

In today's world, communication is key, and I have embraced the role of social media in academic leadership. Platforms like Instagram, TikTok, and YouTube are not just

tools for marketing, but they are powerful ways to connect, to share transparently with stakeholders, and to strengthen UiTM's global image. At the same time, I strongly believe that our work must contribute to the wider world. Aligning our programs with the Sustainable Development Goals (SDGs) ensures that our graduates are not only job-ready but also prepared to address social, economic, and environmental challenges. Education, after all, is not just about employment; it is about impact.

Looking ahead, I aspire to position UiTM Sarawak as a global leader in higher education, known for producing graduates who are innovative, resilient, and globally connected. This requires continuous innovation, strong partnerships, and above all, a commitment to excellence. But the road ahead calls for more than maintaining excellence; it demands transformation. Every decision and initiative is driven by a belief in the transformative power of education. Together, with our dedicated lecturers, staff, and students, we are not just keeping up with change. We are helping to shape the future of UiTM Sarawak.

As I close this Rector's remark, I am filled with optimism and gratitude for the people who make UiTM Sarawak what it is. From the lecturers who nurture minds, the researchers who seek solutions, the staff who sustain operations, the students who bring curiosity and energy, the community partners who open their lives and knowledge to us, and to the alumni who carry our name beyond the campus gates. The next five years will be decisive in shaping UiTM Cawangan Sarawak's legacy for the decades to come. Let us move forward together in partnership, with purpose, and with persistent attention to sustainability. Let our campus be a place where knowledge meets action; where students graduate not only with credentials but with a sense of responsibility; and where UiTM Sarawak stands as a model of how regional universities can contribute to national development and global sustainability.

Terima kasih and may our collaborative efforts in the years to come yield outcomes that uplift communities, protect our environment, and advance knowledge for the common good.

Here's to a greener, stronger, and more united UiTM Sarawak.
With warm regards,

Message from Editor-in-Chief

Assalamualaikum Warahmatullahi Wabarakatuh
And Salam Uitm Di Hatiku,

With heartfelt gratitude, we are proud to present the 85th Issue of Info Kampus Bulletin (January-June 2025 Edition). This publication serves as a platform to highlight the achievements of our university community, share the latest information, and strengthen the spirit of togetherness among members of the university.

UiTM Sarawak Branch continues to register commendable positive developments. In efforts to drive excellence, the university has forged strategic partnerships with the state government and received international recognition for several faculties. Additionally, several new academic programs will be introduced to meet industry demands and enhance the competitiveness of graduates.

I would like to express my highest appreciation and thanks to YBrs. Professor Dr. Firdaus Abdullah, Rector of UiTM Sarawak Branch, for his continued leadership and unwavering support in driving the excellence of this institution. His guidance and strategic vision serve as a source of inspiration for us in producing this bulletin.

Not forgetting, my sincere thanks go to the entire editorial team, article contributors, and all parties who have collaborated to make this publication a success. Your commitment and dedication are greatly appreciated.

We hope that this Info Kampus Bulletin can become a dynamic and ongoing platform to disseminate knowledge, strengthen connections among campus residents, and serve as a reference and inspiration for all readers. We trust that this publication will bring meaningful benefits to the UiTM Sarawak Branch community and reflect the university's aspirations in producing quality and competitive graduates.

Thank you and let us continue to progress together through knowledge.

COURTESY VISIT TO YB DATUK DR. JERIP ANAK SUSIL: STRENGTHENING EDUCATION AND RENEWABLE ENERGY RESEARCH INITIATIVES

Source:
UiTM Sarawak Rector's Facebook Page

Tuesday, 18 March 2025 | Recently, my delegation from UiTM Sarawak Branch (UiTMCS) and I paid a courtesy visit to YB Datuk Dr. Jerip Anak Susil, Deputy Minister of Transport (Land & Air), Ministry of Transport Sarawak (MOT) at his official office in Baitulmakmur 1 Building, Kuching.

Accompanying me during the visit were Assoc. Prof. ChM. Ts. Dr. Mohamad Isa Mohamadin (Deputy Rector for Academic and International Affairs), Assoc. Prof. Dr. Saimi Bujang (Deputy Rector for Student Affairs), Prof. Ir. Dr. Juferi Idris (Deputy Rector for Research and Industry Networking), and Mr. Mohamad Hasimi Abdullah (Senior Deputy Registrar).

During the visit, YB Datuk Dr. Jerip was briefed on UiTM Sarawak's programmes, particularly the Pre-Diploma courses, to be promoted to SPM school leavers in the N.19 Mambong constituency, where YB Datuk Dr. Jerip actively conducts youth development outreach initiatives. UiTM Sarawak expressed its full support and readiness to participate in these outreach programmes.

I also shared an overview of UiTM's collaborative plans with the Sarawak State Government, particularly in research on algae as a renewable energy source and high-technology rice cultivation. Alhamdulillah, YB Datuk Dr. Jerip welcomed the initiative and offered to implement a pilot project in Bengoh as a test bed, supported by a research grant.

In addition, YB Datuk Dr. Jerip expressed his hope for UiTM Sarawak's assistance in developing the rural tourism industry in Bengoh through knowledge transfer initiatives focusing on cultural and artistic tourism package development, which could attract both local and international visitors.

At the end of the visit, I had the opportunity to present a research and collaboration proposal titled "Emission and Carbon Reduction Program: Retrofitting Program for Kuching's Public Bus Fleet" to YB Datuk Dr. Jerip for his consideration and approval.

On behalf of UiTM Sarawak Branch, I would like to express our heartfelt appreciation to YB Datuk Dr. Jerip Anak Susil for his time, warm reception, and strong support toward establishing strategic collaborations with UiTM Sarawak.
