Acknowledgement

This assignment could not have been written and finished without the generous expert existent of many people. In the name of Allah S.W.T, The Merciful the mercy giving. I'm feeling very grateful to Allah, The Almighty that with His blessing, I finally managed to complete our assignment at a time given with His Will.

First and foremost, I would like to express my most appreciation to my supervisor, Pn. Dang Merduwati bt. Hashim for her advice, motivation, tolerance and guidance on how to accomplish this academic project (IMA 654). Besides that, I would also want to thank my parents who always be my number one supporter in whatever I do. Not to forget my friends those who helped me whenever I face with any problems and always stand by me no matter in time of happiness or difficulties.

For those who have assisted me, either directly or indirectly, a thousand thanks to all of you. Your guidance will be appreciated. Hopefully that this assignment will be fulfilled this subject need and can be a useful references in the future.

Thank You.

Abstract

Plagiarism can be said as the offences as to mislead, or in other words, lying. The study also would want to understand students' understanding and perception on the term plagiarism itself. The study will find reasons or factors that lead the students to plagiarize, or if they did not know the term, it is the same as copy-and-pasting. These reasons or factors must be overcome, and that the faculty should do something about it.

Keyword: *plagiarism, students' awareness, students' responsibility, students' understanding, cheating, copying.*
