## ABSTRACT

Every design stage should be completed thoroughly to ensure a successful of Health Tourism Hospital for Darul Ehsan Medical Centre. The project objective of the research is focus on spatial arrangement of the required spaces at common area are not systematic. Besides, environment and design of the existing area does not comform to the required criteria of the Health Tourism Hospital. Client intention to have a new design for office and patient ward as a attraction as Health Tourism Hospital. Other than that, the determining of concept and images play important parts in design as they act as guideline to the design proposal. In order to make sure a perfect design planning, the basic design aspects such as the comfort ability of each space, ergonomics and anthropometrics, and psychological factors must be taken into consideration. At the same time, all of the data collections should be implemented in the design process so that the concept and image of excitement interior will be reflected in the design. Through the proposed new of lobby, office, ward for Health Tourism Department at No 4 Jalan Ikhtiasa 40000 Shah Alam, for Darul Ehsan Medical Centre (DEMC) Selangor will achieve its objective which is to create Health Tourism Hospital that serve comfortable and exclusive medical services and facilities.

## **ACKNOWLEDGEMENT**

**Bismillahirrahmanirahim,**

In the first place I would like to record my gratitude to Mr. Mohamed Nizam for his supervision, advice and guidance from the very early stage of his research as well as giving me extra ordinary experiences through out the work. Above all the most needed, he provided me unflinching encouragement and support in various ways. I also gratefully acknowledge Puan Azizah Md Ajis for her advice and crucial contribution, which made her a backbone of this research and so to this project report.

My parents deserve special mention for their inseparable support and prayers. My mother and my father in the first place is the person who put the fundament my learning character, showing me the joy of intellectual pursuit ever since I was child.

In my daily work I have been blassed with a friendly and cheerful group of fellow friends. Thanks to being my wonderful friends that I ever had for helping me get through the difficult times, and for all the emotional support, entertainment and caring they provided.

Finally, I would like to thank everybody who was important to the successful realization of thesis, as well as expressing my apology that I could not mention personally one by one.

## 1.1 INTRODUCTION

Project Report is one of the subject which had to be taken by student part six (06) in Diploma Interior Design in order to graduate and passed. This course as a practice for student to do their research based on their project proposed and fulfill all the requirement needed. This project report is a report on a Proposed New Design Scheme of Lobby, Office and Ward for Health Tourism Department at No 4 Jalan Ikhtisas 40000 Shah Alam for Darul Ehsan Medical Centre ( DEMC ) SDN. BHD.

Based on Ministry Of Health ( MOH ) 13 May 2011, Health Tourism isa tourist who comes to Malaysia seeking medical care, later to include tourist who fell ill during holiday in Malaysia and now to include foreign students, foreign worker and Malaysian who lives abroad. The Health Tourism industry is one of the fastest growing sector in Malaysia.

This project is to make the DEMC become well known among medical centre and also to offering a combined spectrum of primary care, specialist services and healthcare need of their community, national and international customer.
