## ABSTRACT

This Diploma level Interior Design final project is towards student understanding about the interior design project's whole aspect that had been studied from the basic level until the design proposal presentation. The selected final project is a PROPOSED NEW INTERIOR DESIGN OF PERODUA 3S SERVICE CENTRE FOR MEDAN PRISMA SDN. BHD. LOT 10-16, 17, 18, 19, SEKSYEN 16, JALAN BANDAR BARU RAWANG, 48010 RAWANG, SELANGOR DARUL EHSAN. With the outcome of too many of local vehicles and service centre, it is hope to dedication towards social responsibility to community, the environment and development of competent workforce. The concept, style and image also applied on both interior and exterior to appeal the service centre will be able to lure more customers. There were several researches done to succeed this 3S service centre final project, amongst them are site analysis, building analysis, interview, observation and case studies. All these studies have a purpose of identifying the existing weaknesses and also attempt to solve some of the problems that appear. These investigations will be implemented in the design process with the intention to gain an attractive design and also suitable with the PERODUA corporate image in terms of function and aesthetic value.

## CHAPTER 1.0 INTRODUCTION

### 1.1 PREFACE

This report is the coursework for course THE386, Research Thesis as for graduating in Diploma in Interior Design, Universiti Teknologi Mara. This course is a comprehensive practice on the art of Interior Design, where at this stage the students have to prepare a design scheme based on analysis and observations on some issues or problems that they encounter while dealing with the design process. This Thesis Report is a report on a proposed new design scheme for PERODUA Sales, Service and Showroom (3S) for Diploma in Interior Design's final project. This is important as to propose a new interior design scheme on the client's needs and on the current issues based on the critics observation.
