ABSTRACT

This report is on Proposed Interior Design Scheme Of Children's Library Entertainment & Education . The suggested location at Mid Valley Megamall , Persiaran Syed Putra , 52900 , Kuala Lumpur . This is project report of children's library at Mid Valley Megamall . Children's library is important for each children's because with the children's library can learn lot of things , apart can learn , play while learning , know a lot of friends , children's can also use the spare time to learn than by their parents go to shopping . Nowadays problems on children's library is also often said , is the lack of children's library in shopping complex . Government campaigns for children's to read in order to attract them to reading , in addition with children's library can create a special space for them to make a useful things such as reading . Valuable time can also be used to correct than on go to shopping with parent's .

The objective of doing project report is to give student a foundation of understanding by broadening their knowledge of spatial design through the study of the plan and plan language . This course will make student practice to do some research based on their project proposal at part six(06) . Student also should fulfill all the requirement needed and must follow the stage.

Library is a collection information , sources , resources , and services , and the structure in which it is housed. it is housed it is organized for use and maintained by a public body , an institution , or a private individual . In the more traditional sense, a library is a collection of books . The term can mean the collection, the building that houses such a collection, or both. Children of all ages should find the library an open, inviting, attractive, challenging and non-threatening place to visit. Children's library contain an book, extreme activity , entertainment and many more. In this paper we describe the meaning of library, services, space requirement at library such as information gathered by site analysis , interviews , books , case studies and etc . The focus is design a library that is functional, attractive children's interests , better usual library in Malaysia.

CHAPTER 1.0 INTRODUCTION

1.1 INTRODUCTION

Children's library is one place for kid's to do many thing like reading , playing , get information and etc . Children's library can provide special education to each children's . This written report is about of children's library entertainment & education at Mid Valley Megamall .

Target group for children's aged 4 to 12 years old . In children's library devide by zoning , like zone 1 for children's aged 4 to 6 years old , zone 2 for children's aged 7 to 9 years old , and for zone 3 for children's aged 10 to 12 years old . Children's library design because the lack of children's in shopping mall and many children's waste time with parent go to shopping . Location of children's library is at Mid Valley Megamaal .

Children's library provide service to all childrens , kids and people to make some of thei book for lending , story telling , puppet show , some entertainment , game show and many more.

I am trying to design library that welcoming to all expecially to disable person and it possible to them for access. In children's library can give a new environment at library , create a fresh look toward the dull looks of the another library.
