# 1. PREFACE

The Annotated Bibliography Perpustakaan Tun Abdul Razak UNIVERSITI TEKNOLOGI MARA SHAH ALAM is a list of library materials added into the collection of Perpustakaan Tun Abdul Razak in Shah Alam Campus. It will be published quarterly (4 issues a year). The listed materials are available in various formats obtained through the procurement process including donation.

## Scope

The bibliography covers materials added into the library collection that published in Bahasa Malaysia, English, Arabic and Chinese. The materials such as books, government publications, annual reports, pamphlets and audio-video material.

## Cataloguing and Classification

Follow the rules as below:

1. Cataloguing - 'Resource Description and Access' (RDA - released in June 2010 / 2017 April Update).
2. Classification scheme – Library of Congress Classification Scheme (2017).
3. Classification scheme for Medical - National Library of Medicine Classification (NLM) 2017 edition
4. Subject headings - Library of Congress Subject Headings (39<sup>th</sup> Edition).
5. Subject headings - Medical Subject Headings (MeSH) 2017 edition

## 2. LIBRARY OF CONGRESS CLASSIFICATION SCHEME

The listed materials are arranged in accordance with the 'Library of Congress' starting from the A to Z alphabetically ordered. The classification scheme is as follows:

A	GENERAL WORKS
B	PHILOSOPHY, PSYCHOLOGY, RELIGION
C D E F	HISTORY
G	GEOGRAPHY, ANTHROPOLOGY, RECREATION
H	SOCIAL SCIENCES
J	POLITICAL SCIENCE
K	LAW
L	EDUCATION
M	MUSIC AND BOOKS ON MUSIC
N	FINE ARTS
P	LANGUAGE AND LITERATURE
Q	SCIENCE
S	AGRICULTURE
T	TECHNOLOGY
U	MILITARY SCIENCE
V	NAVAL SCIENCE
W	MEDICINE
Z	BIBLIOGRAPHY, LIBRARY SCIENCE, INFORMATION RESOURCES

If there are more than one material in the same classification scheme, the order will follow the order of the primary entry of a substance.

### 3. THE ABBREVIATIONS FOR LIBRARY LOCATION

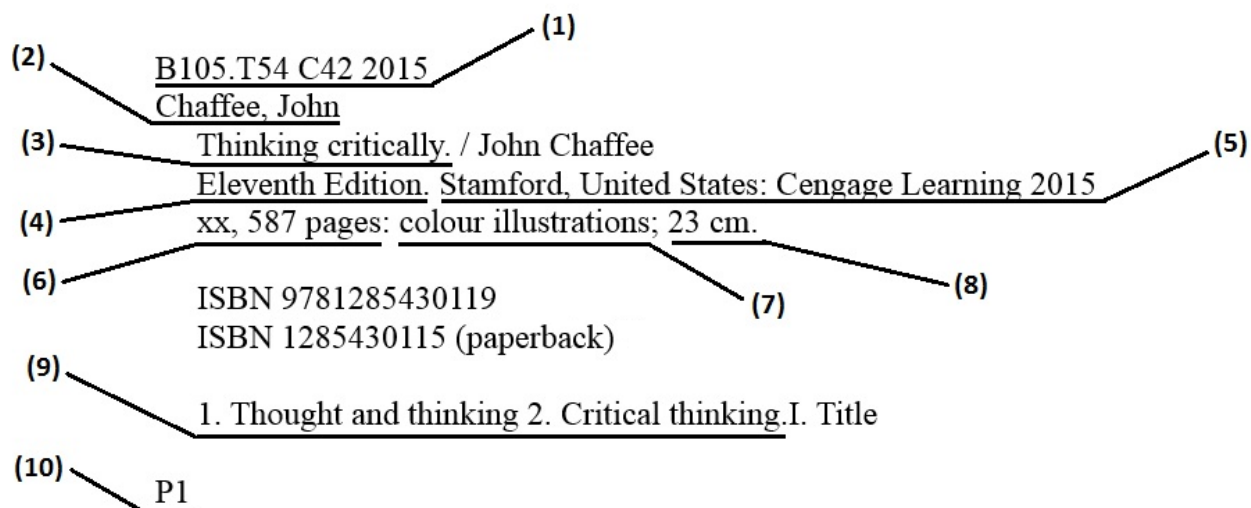

FSPU	Perpustakaan Tun Abdul Razak Alam Bina
KKP1	Bilik Koleksi Khas P1
P1	Perpustakaan Tun Abdul Razak Utama
P2	Perpustakaan Tun Abdul Razak Undang-Undang

## 5. ANNOTATED BIBLIOGRAPHY

### 5.1 A GENERAL WORKS

1. AG5 .C55 1984  
The Children's Book of Questions and Answers.  
480 pages: illustrations; 27 cm.  
Includes index.  
  
ISBN 0706406206  
  
1. Children's encyclopedias and dictionaries. I. Addison, Anthony II. Title

P1

#### Abstract

Life consists of asking questions. We start from the moment we learn to string words together and most of us go on asking them for the rest of our lives. Alas we don't always find the answers. This book presents a random array of questions most commonly asked by children and parents alike. When a question springs to mind, ferreting out the answer can be a difficult business. Often the answer can be a difficult business. Often the answerer lies buried in a mass of information we don't need. This book goes straight to the heart of the matter and answers simple (and not so simple) Questions in a down -to earth manner.

### 5.2 B PHILOSOPHY, PSYCHOLOGY, RELIGION

2. BF145 .E97 1964  
Eysenck, H. J. , 1916-  
SENSE AND NONSENSE IN PSYCHOLOGY/ H. J. Eysenck 1916-  
349 pages: illustrations; 18 cm Pelican books.  
Includes index.  
  
1. Psychical research 2. Personality. I. Title II. Series

P1

#### Abstract

Hans Eysenck was one of the most important and influential psychologists of the 20th century, being at the time of his retirement the most-cited social scientist in the World. He was especially known for advocating “the highest degree of scientific rigour in the design of psychological experiments and [being] very critical of much loose thinking current at present under the guise of ‘psychology’”

3. BF1779.F4 O54 2008  
Ong, Hean-Tatt  
LANDSCAPE FENG SHUI SECRETS OF XUE XIN FU SNOW HEART / Hean-Tatt Ong  
iv, 216 pages: illustrations; 24 cm.  
  
ISBN 9789832816164  
  
1. Feng Shui. I. Tan, Raymond II. Title

Abstract

We are aware that many Feng Shui masters had come away from these classics, bewildered at their difficulties at penetrating the meanings of the ancient texts. One well known Feng Shui master rightly said that only a person with good knowledge of Chinese culture and history can hope to unravel the age old secrets. The thought had taken shape through a few years. It is the recognition that modern Feng Shui practitioners are unaware that it was Confucius who penned down the first Feng Shui texts! The modern Feng Shui practitioners are also unaware that the writers of the scattered ancient Feng Shui texts were actually commenting on what Confucius had written about Feng Shui.

4. BF408 .T43 1990

THEORIES OF CREATIVITY

276 pages; illustrations; 23 cm

Sage focus editions; v. 115.

Papers presented at a conference held at Pitzer College in Claremont, Calif., Nov. 11-13, 1988.

ISBN 0803935447

1. Creative ability - Congresses. I. Runco, Mark A II. Albert, Robert S III. Title IV. Series

P1

Abstract

Creativity is the ability to produce original work and ideas. It starts with a creative person using a creative process to make a creative (new) product. Various studies have been carried out to obtain information about the behavior of creative individuals. These people are usually energetic and full of ideas. When confronted with a problem, they consider all of the different ways to solve it and tend to come up with unique solutions. Many models have been developed to explain creativity and the creative thinking process. Some of them are presented and discussed in this chapter. However, it should be mentioned that most of them include steps with the common themes of synthesis, analysis, and evaluation.

1. Procrastination 2. Self-actualization (Psychology). I. Title

P1

#### Abstract

Everyone waits till the last minute sometimes. But many procrastinators pay a significant price, from poor job performance to stress, financial problems, and relationship conflicts. Fortunately, just as anyone can endlessly delay, anyone can learn how to stop! Cognitive-behavioral therapy expert Monica Ramirez Basco shows exactly how in this motivating guide. Dr. Basco peppers the book with easy-to-relate-to examples from "recovering procrastinators"--including herself.

7. BF713 .T46 1986  
THEORY BUILDING IN DEVELOPMENTAL PSYCHOLOGY.

xiv, 499 pages: illustrations; 24 cm

Advances in psychology 36.

Based on a symposium held at the Inaugural European Conference on Behavioural Development in Groningen, 28-31 Aug. 1984.

ISBN 0444700420

1. Developmental psychology - Congresses - Methodology 2. Developmental psychology - Congresses. I. Geert, Paul van II. European Conference on Behavioural Development. III. Title IV. Series

P1

#### Abstract

Discussing (from various viewpoints) problems in theory building and theory evaluation, this book starts from the assumption that theories of development are particular ways of defining the concept of psychological development in terms of a specific conceptual framework, as well as in terms of a specific empirical range (nature of the explained phenomena, prototypical experiments and applications, etc.).

Abstract  
Tafsir ini adalah kitab tafsir yang istimewa. Pertama, ia ditulis pada masa kini bukan masa sekian abad yang lalu. Sehingga ia merepresentasikan pandangan seorang mukmin atas dunia kita yang berada dalam era Godless Civilization. Kedua, ia ditulis dari balik terali besi penjara oleh seorang ulama mujahid-dakwah yang istiqamah sepanjang hayatnya membela kalimat tauhid sampai syahid di tiang gantungan penguasa zalim. Dan ketiga, kandungannya memadukan ketegaran akidah, fikrah, dan manhaj Islam dengan tampilan bahasa sastra yang indah dan menyentuh. Mahasuci Allah Yang Mahatinggi. (Muhammad Ihsan Tanjung)

1. Qur'an and science. I. Title

P1

Abstract

Although the Qur'an is not a book of science, scientific words, sentences, and sometimes even paragraphs are found throughout its text and call out for understanding or explanation. I have always been fascinated by such instances and hoped that one day I would be able to unravel their mystery. My attempt to do so started about fourteen years ago when I began to study modern sciences and build my medical experience. I soon concluded that any attempt to gather the scientific facts mentioned in the Qur'an, relate them to each other, and then work out possible scientific meanings would require more than just the use of a computer.

1. Hadith - Criticism, interpretation. I. Title

P1

Abstract

Khidmat kepada sunnah Rasulullah SAW boleh berlaku dalam berbagai cara dan bentuk. Medium lisan dan tulisan merupakan antara cara yang dianggap relevan dan efektif. Medium ini mendominasi dalam menyampaikan ajaran Islam kepada masyarakat Melayu, khususnya di Malaysia. Merujuk kepada sunnah atau hadis sebagai sumber hukum syariat Islam selepas al-Quran, adalah amat penting untuk memastikan nilai dan tarafnya sah atau setaraf dengannya. Bagaimanapun, kajian membuktikan bahawa al-mawdu' (hadis palsu) dijadikan sumber hukum dan hujah. Ianya terdapat dalam pelbagai aspek yang menyentuh hal akhlak dan sebagainya. Penyebarannya berleluasa sehingga kini dalam masyarakat Melayu, sekalipun para ulama hadis telah memberikan garis panduan dan manhaj terperinci untuk menyaring dan mengenal pasti al-mawda'. Bahkan para ulama hadis daripada kalangan muttaggidimin dan muta'akhirin telah mencurahkan usaha menyusun banyak kitab kumpulan al-mawda yang mana ianya ditolak sebagai hujah. Antara medium al-mawda' dalam masyarakat Melayu adalah kitab agama karangan asli atau terjemahan, ceramah, khutbah Jumaat, kelas formal dan tidak formal, majalah dan sebagainya.

P1, P2

Abstract

Agama Islam merupakan sebuah nidhom (aturan) universal yang mencakup seluruh segi kehidupan manusia. Sehingga ia tidak bisa dipisahkan darinegara dan tanah air atau pemerintah dan rakyat (ummat). Ia adalah moral(akhlak) dan kekuatan (power), atau rahmat dan keadilan, ia adalah sebuah peradaban dan undang-undang, atau ilmu pengetahuan dan hukum. Ia adalah sebuah materi dan sumber alam atau usaha dan kekayaan, ia adalah jihad dan dakwah, atau pasukan tentara dan fikrah. Seperti juga ia adalah sebuah aqidah yang mantap dan ibadah yang benar. Semuanya sama, tidak bisa dipilah-pilah. (Prinsip Pertama)

#### Abstract

Kupasan isu-isu berkaitan dengan penggunaan nama Allah yang terkandung di dalam buku ini diperkukuhkan dengan nas-nas serta dalil yang lengkap dan turut disertakan huraian segi aspek perundangan negara dan negeri Selangor. Ia turut merangkumi jawapan pada isu-isu dan polemik semasa yang menjadi persoalan dalam pemikiran masyarakat. Di samping itu, buku ini juga membantu umat Islam untuk memahami pandangan sebenar agama Kristian terhadap penggunaan nama Allah dan menangkis dakwah tuntutan gerakan tertentu untuk menggunakan kalimah Allah dalam terjemahan agama mereka. Malah apa yang paling penting, buku ini mengajak umat Islam untuk berfikir dan merenung dengan hati yang jernih dan tulus tentang kesan isu penyalahgunaan nama Allah terhadap agama, bangsa dan negara. Justeru, umat Islam perlu bersatu hati mengambil pegangan yang utuh, menjelaskan fikrah dan membulatkan iltizam untuk menghadapi cabaran ini.

PPSB

#### Abstract

Gagal dalam kematian jauh lebih teruk daripada gagal dalam peperiksaan. Anda boleh gagal dalam hidup, tapi jangan sampai gagal dalam kematian! Maksudnya, jangan sampai kita mati dan tercatat sebagai orang yang gagal di sisi Tuhan. Maka belajarliah daripada kematian. Banyak-banyaklah mengingatati kematian. Buat persediaan yang matang untuk menghadapi kematian. Jangan lupakan kematian, kerana kematian tak pernah melupakan kita. Jangan lupa untuk mengambil pelajaran daripadanya, kerana kelupaan itu akan menjadi penyesalan yang besar pada hari kemudian. Jangan tak bersedia dalam menghadapinya, kerana kematian selalu mengintai dan bersedia untuk mencabut nyawa kita. Jangan tunggu lagi. Ambillah pelajaran sekarang juga. Buat persediaan secepatnya. Agar pada akhirnya kita mampu menjadi seorang pemenang yang sejati. Seorang pemenang yang mendapat iktiraf daripada Khalik, bukan sekadar iktiraf daripada makhluk.

P1, PPA, PKD

Abstract

Buku pendedahan agenda Kristian ini diterbitkan untuk rujukan dan kefahaman umat Islam berkaitan gerakan kristianisasi dan evangelisme Kristian. Sejak akhir-akhir ini, isu kristianisasi semakin hangat diperkatakan dan yang menyedihkan ia melibatkan kes murtad oleh umat Islam. Masalah murtad adalah satu jenayah besar dalam Islam dan ia mencemarkan kesucian agama ini. Tindakan memurtadkan umat Islam walau dengan apa alasan sekalipun adalah sesuatu perkara yang tidak wajar. Ia menggugat hak dan prinsip agama ini. Jenayah ini ibarat menculik anak orang lain dari rumah mereka dan mengajarkan kepada anak itu bahawa ibubapa mereka tidak benar. Justeru, satu inisiatif perlu diambil untuk membendung masalah ini.

Abstract

Issue on political system and Islam in Malaysia. Tangan-tangan Jahat: Melayu & Ultrakiasu adalah kesinambungan cetusan minda dari Prof. Dr. Mohd Ridhuan Tee Abdullah. Ia adalah realiti sebenar yang berlaku dalam politik Malaysia. Kiasu dalam bahasa Cina Hokkien bermaksud takut kalah atau sentiasa mahu menang. Ultrakiasu membawa makna, langsung tidak mahu kalah atau mahu menang sentiasa secara ekstrem. Sifat kiasu perlu ada pada jiwa setiap manusia yang ingin berjaya. Kiasu akan menjadikan kita lebih berdaya saing. Namun jika sifat ini tidak dibendung sehingga sampai ke peringkat ultra, sudah tentu ia akan membawa kesan buruk kerana akan ada hati-hati yang terguris dan terhiris.

P1, P2

Abstract

This English edition of The Sacred Journey presents the traditions, dogma, and Islamic ritual that govern the lives and destiny of one seventh of mankind. For the more than five million who call themselves Muslim, this is the official guide to the Sacred Journey, the pilgrimage to Mecca, and for non-Muslims, it is a gateway to another world, the first full-scale picture of Islam as it appears to the followers of the Prophet Muhammad. Not since the early eighteenth century has any writer brought to the Western reader so profound a knowledge of Islam.

Abstract

It defines the halal and haram in a scholarly manner that is accessible to the common man, dealing mainly with social issues. This book provides a comprehensive outline of specific everyday issues that Muslims face in practicing Islam in contemporary culture. The author gears discussion to modern-day dilemmas, drawing his conclusions about haram and halal from primary Islamic sources. Qaradawi is probably the foremost scholar of the Sunni Muslim world today. He is known for taking a balanced position on many religious issues pertaining to what is lawful and unlawful in Islam. (Making it easy for the average Muslim) He combines well the traditional knowledge of sharia that he obtained from al-Azhari with a contemporary understanding of the issues that Muslims face today.

Abstract  
Prof. Dr. Hamka pernah dipercayakan sebagai Guru Besar Ilmu Tasawuf di Perguruan Tinggi Agama Islam Negeri (PTAIN) Yogyakarta dan IAIN. Upayanya yang cukup bermakna ialah mengembalikan tasawuf ke ajarannya yang murni. Dalam hubungan ini dia mengarang bukunya yang terkenal, Mengembalikan Tasawuf ke Pangkalnya. Kini karya tulisnya yang berjudul Perkembangan Tasawuf dari Abad ke Abad telah dipadukan menjadi satu dengan bukunya yang berjudul Mengembalikan Tasawuf ke Pangkalnya, dengan judul Tasawuf Perkembangan & Pemurniannya.

Abstract

Politik adalah satu juzuk daripada mauduk pendakwahan yang bermatlamatkan kebahagiaan di dunia dan akhirat. Kegiatan politik yang dipandu oleh wahyu dan berjalan di atas landasan etika boleh memberi implikasi murni kepada seluruh aspek kehidupan masyarakat. Kematangan berpolitik amat penting untuk dibangunkan dalam masyarakat dan kesedaran terhadap kepentingannya perlu sentiasa dipupuk kerana ia melibatkan proses pembentukan tamadun sesebuah negara. Kematangan dalam berpolitik, bukan sahaja dari segi teori tetapi juga dari segi praktikalnya.

Abstract

When this book first appeared, it was possible for a friendly reviewer, writing in a serious journal, to deprecate in all gravity the employment of the term 'Capitalism' in an historical work, as a political catch-word, betraying a sinister intention on the part of the misguided author. An innocent solecism of the kind would not, it is probable, occur so readily today. Obviously, the word 'Capitalism', like 'Feudalism' and 'Mercantilism', is open to misuse. Obviously, the time has now come when it is more important to determine the different species of Capitalism, and the successive phases of its growth, than to continue to labour the existence of the genus.

Abstract

THOUGH the October revolution took place more than half a century ago, the study of religion in the Soviet Union has not received the attention it deserves. This has been due partly to the difficulty of obtaining reliable information, partly perhaps to the widespread belief that Russian Orthodoxy, corrupt under the tsars and discredited by their downfall, has been in irretrievable decline and did not merit serious study. To many Western observers, therefore, the obvious commitment to Christianity of individuals of the calibre of Boris Pasternak and Svetlana Allilueva, Stalin's daughter, has come as a surprise. The three books under discussion each contribute towards a better founded understanding of the religious situation in the Soviet Union since the communists seized power.

Title</p> <p>P1, P2</p> <p>Abstract  This book comprises nine key articles on the Counter-Reformation, introduced and contextualized for the student reader. They show that these reforms were more than a mere reaction against the Protestant challenge to Catholic doctrine and institutions, rather, they also constituted an internal renewal that transformed sixteenth- and seventeenth-century Catholic religious life in many complex ways. The collection surveys the conceptual and geographical range of work on the subject since 1945, and includes innovative articles on spirituality, the religious life of ordinary Catholics, the work of missionaries in the New World, and the changing role of women in Catholic culture. The essays are divided into two groups - "Definitions" and "Outcomes" - to illustrate the distinction between reform as a historical idea and as set of processes.</p>

37.	<p>D663 .A48 1964 Aitken, Alexander GALLIPOLI TO THE SOMME: Recollections of the New Zealand Infantryman / Alexander Aitken 177 pages: illustrations; 18 cm.</p> <p>1. World War, 1914-1918 - Biography 2. World War, 1914-1918 - Journalist - Biography. I. Title</p> <p>P1</p> <p>Abstract Alexander Aitken was an ordinary soldier with an extraordinary mind. The student who enlisted in 1915 was a mathematical genius who could multiply nine-digit numbers in his head. He took a violin with him to Gallipoli (where field telephone wire substituted for an E-string) and practiced Bach on the Western Front. Aitken also loved poetry and knew the Aeneid and Paradise Lost by heart. His powers of memory were dazzling. When a vital roll-book was lost with the dead, he was able to dictate the full name, regimental number, next of kin and address of next of kin for every member of his former platoon—a total of fifty-six men. Everything he saw, he could remember. Aitken began to write about his experiences in 1917 as a wounded out-patient in Dunedin Hospital.</p>
38.	<p>DC135.P8 .M58 1968 Mitford, Nancy, 1904-1973 Madame de Pompadour / Nancy Mitford, 1904-1973 304 pages; 25 cm. Includes index.</p> <p>1. Pompadour, Jeanne Poisson, Marquise De, 1721-1764 2. Louis XV, King Of France, 1710-1774 - Relations With Women 3. Favorites, Royal - France - Biography. I. Title</p> <p>P1</p> <p>Abstract Pompadour was devoted to Louis XV, and her contribution to the culture of the age was significant: she was an outstanding singer and actress, entertaining the King and the court in impressive stage productions, and was a longtime patron of the visual arts. She commissioned paintings by Boucher, Nattier, Van Loo, La Tour, and Pigalle, and she formed friendships with many of the philosophers and writers of the period, including Fontenelle, Crébillon, and Voltaire. In effect, she was France's minister of culture at a time when no such position existed. But she was loathed for her role in France's disastrous military losses, and was the victim of persistent court gossip and intrigues.</p>

Abstract

This Annotated Field Guidebook will be useful to practicing geo-technical engineers, botanists, ecologists, landscape planners, eco-engineers and post-graduate students. It highlights practical eco-engineering for erosion and sediment control and field preparation and logistics. This book also contains divergent use of many words and expressions pertinent to the field of erosion and sedimentation, storm water pollution control, and channel and shore protection. Where applicable, pictures are provided to assist users in understanding various terms, materials or structures.

Abstract

This book examines the implications of that critique from the perspective of anthropology. The authors explore key debates within anthropology about the role and legitimacy of the social scientist in constructing knowledge about others.

P1

Abstract

In the Southeast Asian region, various communities have been closely associated with the sea. Many have, over the years, acquired special memory and, sometimes, intimate knowledge of the sea. Even as much of this information and knowledge was passed from generation to generation, it provided maritime communities with a sense of identity and social cohesiveness as well as a sense of belonging. It was in this light that the papers in this volume set out to investigate the human association with the sea in Southeast Asia through the interrogation of memory and knowledge preserved through various genres including oral tradition, travellers' tales and diaries, official accounts as well as rituals.

Abstract

For over a thousand years, foot binding (three-inch golden lotus) was practised by women in China as part of a culture associated with rites, music and civilised institutions and as an ornament of the body. This practice was once considered as an attractive way to exhibit beauty. The book provides us with a deeper understanding of the cultural, historical and socio-political motives behind this practice. 132 pages with lots of colourful photos of the shoes. The book are bilingual (Malay and English) The book was written as background to an exhibition.

P4

Abstract

Written by an international team of expert contributors, this unique global and authoritative survey explores in full but accessible detail the basic constructs and concepts of modern sport and exercise psychology and their practical application. The book consists of 62 chapters, written by 144 contributors, deriving from 24 countries across the world. The chapters are arranged in nine cohesive sections: sport and exercise participants; the influence of environments on sport and exercise; motor skills; performance enhancement; building and leading teams; career, life skills and character development; health and well-being enhancement; clinical issues in sport psychology; and professional development and practice. Each chapter contains chapter summaries and objectives, learning aids, questions, exercises and references for further reading.

Abstract

From the Olympic Games to community-level competitions, sports events can be complex and pose a particular set of managerial challenges. The Routledge Handbook of Sports Event Management surveys the management of sports events around the world of every size and scale, from small to mega-events, including one-off and recurring events, and single-sport and multi-sport events. The book adopts a unique stakeholder perspective, structured around the groups and individuals who have an interest in and co-create sports events, including organising committees, promoters, sport..

P4

Abstract

Theory is an essential element in the development of any academic discipline and sport management is no exception. This is the first book to trace the intellectual contours of theory in sport management, and to explain, critique and celebrate the importance of sport management theory in academic research, teaching and learning, and in the development of professional practice. Written by a world-class team of international sport management scholars, each of whom has taken a leading role in developing a particular theory or framework for understanding sport management, the book covers the full span of contemporary issues, debates, themes and functional approaches, from corporate social responsibility and diversity to strategy, marketing and finance. Every chapter explores a key theoretical approach, including an overview of that theory, a discussion of the process of theory development and of how the theory has been employed in research, practice or teaching, and outlines directions for future research in that area.

P4

Abstract

An increasingly important element of sport business is the management of the myriad of relationships in which sport entities are involved. It is the relationship management aspect of sport which is the unique focus of this book. Sport Public Relations and Communication discusses and reformulates the principles of public relations and communications by demonstrating how they can be successfully applied in practice within a sports context.

P1

Abstract

Corporate social responsibility (CSR) is one of the new corporate governance mantras that give some credence to stakeholder theory of corporations. Studies have examined the interest in, levels and effects of CSR investments on employees, customers, investors etc. However, CSR is an intermediate outcome. Corporate legitimacy is what corporations seek to achieve through CSR although this is not always explicit. This study examines the relationship between corporate responsibility and corporate legitimacy.

- Abstract
- The research objectives are to identify the encompassing elements of risk management and ERM in theory and practice, to develop and test the CREERM conceptual framework and finally, to refine and validate the proposed CREERM framework. The research strategy begins with the review and observations of the established risk management frameworks in theory and published research as well as the ones in business practice. This involves the quantitative and qualitative content analysis of the academic literature and the Malaysian Top 100 company (by market tVi capitalisation as at 28 June 2010) annual reports through a scoping study to determine the organisations' risk management capabilities.

 Abstract  
 This study aimed to assess the role of trade unions in the Malaysian industrial relations system. This study has identified many important results from the analysis carried out in the aspects of trade unions effectiveness and the perception of the trade union members on the implementation of the Trans-Pacific Partnership Agreement (TPPA). In addition, the study has also performed benchmarking exercise to determine the current state of trade unionism in Malaysia in comparison with ten other countries in the Asia Pacific, Europe and America regions.

xi, 212 pages: illustrations; 24 cm.

ISBN 9780743267410

1. Service industries 2. Service industries - Marketing. I. Parasuraman A II. Title

P2

Abstract

Excellent service is the foundation for services marketing, contend Leonard Berry and A. Parasuraman in this companion volume to Delivering Quality Service. Building on eight years of research, the authors develop a model for understanding the relationship between quality and marketing in services and offer dozens of practical insights into ways to improve services marketing. They argue that superior service cannot be manufactured in a factory, packaged, and delivered intact to customers. Though an innovative service concept may give a company an initial edge, superior quality is vital to sustaining success.

Abstract  
Innovative in perspective, this book emphasizes the extremely close connection between communication and the traditional functions of management. It explores both the objective elements of communication (sender, message, channel and receiver) and the subjective elements (assumptions, purpose — intention/audience, and interpretation. It recognizes — and emphasizes — that human communication is complex and that communication is not the message sent, but the message received. Describes how communication works. Discusses the basic communication skills in listening, public speaking, writing, and networking. Explores communication in relation to management and leadership -- and the communication climate. Addresses specific types of communication that managers need in motivating people, helping teams function, conducting meetings, and managing conflict.

Abstract  
Communicating Globally: Intercultural Communication and International Business uniquely integrates the theory and skills of intercultural communication with the practices of multinational organizations and international business. Authors Wallace V. Schmidt, Roger N. Conaway, Susan S. Easton, and William J. Wardrope provide students with a cultural general awareness of diverse world views, valuable insights on understanding and overcoming cultural differences, and a clear path to international business success.

P3

Abstract

Business Communication: Building Critical Skills provides a unique approach to a hands-on course, devised and created in its previous editions by Kitty Locker, with the assistance of a community college colleague, Stephen Kaczmarek. The innovative module structure allows instructors to focus on specific skills and provides greater flexibility for short courses and different teaching approaches. While grounded in solid business communication fundamentals, this text takes a strong workplace activity orientation which helps students build the writing, speaking, and listening skills that are crucial for success in the 21st-century workplace.

Abstract

ESSENTIALS OF BUSINESS COMMUNICATION, 9TH EDITION presents a streamlined approach to business communication that includes unparalleled resources and author support. ESSENTIALS OF BUSINESS COMMUNICATION provides a four-in-one learning package: authoritative text, practical workbook, self-teaching grammar/mechanics handbook, and premium Web site. Especially effective for those with outdated or inadequate language skills, the Ninth Edition offers extraordinary print and digital exercises to help students build confidence as they review grammar, punctuation, and writing guidelines. Textbook chapters teach basic writing skills and then apply these skills to a variety of e-mails, memos, letters, reports, and resumes. Realistic model documents and structured writing assignments help build lasting workplace skills.

 P1

Abstract

Examines the long-term effects of two decades of loans to poor women in Bangladesh through portraits of the lives of women in two villages who have benefitted from the loans. Details the day-to-day processes of how they generate income from the loans, what they do with their income, and how much control they retain over it, demonstrating that credit alone can fundamentally change poor women's lives. Includes a glossary and b&w photos. Annotation c. by Book News, Inc., Portland, Or.

INTERNATIONAL FINANCE: A Casebook / Mihiri A. Desai

xvii, 494 pages: illustration ; 27 cm.

ISBN 9780471737681

1. International finance - Case studies. I. Title

P2

Abstract

These case studies offer a unique perspective on making financial decisions in a globalizing world. The cases build the basics of understanding international financial markets - including the economics of exchange rates and international asset allocation - and then consider how firm financing and investment decisions must adapt to international circumstances. The cases provide the opportunity to consider the most critical firm financial decisions - from foreign exchange hedging strategies, the financing of multinational firm subsidiaries, cross-border valuation, to how to measure and manage the risks of operating in emerging markets.

Abstract  
Foundations of Financial Management has built a loyal following due to its strong real-world emphasis, clear writing style, and step-by-step explanations that simplify difficult concepts. The text focuses on the "nuts and bolts" of finance with clear and thorough treatment of concepts and applications. In addition to completing the revisions, Block, Hirt, and Danielsen also revise all end of chapter problems and complete the solutions themselves. The authors know what works and what doesn't work for students, and they have consistently maintained a product that is responsive to the demands of the marketplace.

Abstract

The contributory factors to male homosexuals' (MH) involvement with mainstream newspapers reporting of homosexuality was observed on news content representation including the reporting criterion and its consistency to be reported to the audiences, triggering the public interest in receiving information and advocating themselves towards a guided living culture. This study was guided with two theories; (i) Uses and Gratifications Theory, and (ii) Social Judgment Theory following a series of content analysis on newspapers reporting of homosexuality that was conducted to understand how it was presented.

Abstract

Preparation for the UiTM: EET English Exit Test is a book for graduating students to complete their final year, as well as to measure their English language proficiency. The book includes 7 units which each unit equips students with useful language expressions and strategies to respond appropriately to a variety of situations. Sample responses are also included to show students how best to respond to given contexts. Each unit also concludes with exercises to reinforce language skills and comprises model test papers; two sets of the speaking test and two sets of the writing test. Answer keys are given.

Abstract

Isu yang disajikan dalam buku ini berkisar sepenuhnya kepada isu bahasa Melayu, yakni dapat dibahagikan kepada tiga, pertama isu tatabahasa bahasa Melayu, dialek bahasa Melayu dan bahasa kerabat, dan isu pendidikan dalam bahasa Melayu. Semua isu ini diolah secara kreatif, terkini dan data bahasa yang diperoleh melalui penyelidikan lapangan yang dilakukan. Adalah diharapkan melalui sepuluh bab isu berkaitan bahasa Melayu yang disajikan dalam buku ini mampu memberikan satu cakerawala berfikir secara lebih ilmiah dan dapat dipertanggungjawabkan.

xx, 284 pages: illustrations; 30 cm.

1. Cataract 2. Vision disorders 3. Eye - Diseases. I. Faculty of Medicine. II. Fakulti Perubatan.

P1

Abstract

Cataract, the leading cause of blindness, is currently treated only by surgery. Cataract carries risk of complications and its management increases economic burden. Thus, development of pharmacological options with anticataract effects is important. Oxidative-nitrosative stress, non-enzymatic glycation and osmotic stress underlie cataractogenesis. Since tocotrienol possesses biological properties that may suppress pathophysiological mechanism of cataractogenesis, we investigated its anticataract effects in rats.

P1

#### Abstract

History and bibliography of newspapers and periodicals in Sumatera Barat, Indonesia from 1900 to 1941. Sejarah pertumbuhan akhbar dan majalah di Sumatera Barat sejak penghujung abad ke-19 hanya difahami jika dilihat dalam konteks sejarah penjajahan Belanda di Indonesia. Selain bertujuan untuk merubah cara berfikir rakyat, pers Minangkabau juga mempunyai matlamat bersifat komersial. Buku ini membincangkan peranan surat khabar dan 'surat berkala' di Minangkabau sebelum pecah Perang Dunia Kedua, dengan meletakkannya dalam konteks masyarakat Minangkabau gigih hendak mencapai 'kemajuan' sekular dan keagamaan. Melalui buku ini, pengarang cuba menunjukkan betapa persaingan antara puak yang berlainan pandangan, baik dari segi politik, agama mahupun adat, telah termanifestasi di dalam surat khabar dan majalah yang membawakan aliran berbeza-beza, tetapi mengaku ingin membawa kemajuan kepada masyarakat Minangkabau.

- P1, P2
- Abstract  
Geoffrey Chaucer wrote The Canterbury Tales almost 600 years ago, in the late Middle Ages, a historical distance that at first sight might appear problematic. This lengthy poem was produced at a time when the English language was still in its infancy and the language is not always immediately recognisable to us today. In the same way, late medieval culture was very different from that of the present day.

1. English Literature - Study and teaching (Higher) - speaking countries 2. American literature - Study and teaching (Higher) - Theory, etc 3. Criticism. I. Susan Gubar, - 1944-;
- P1
- Abstract  
In English Inside Out prominent proponents of literary studies take a close look at the current state of the discipline and envisage its future. How has the rise of political correctness or the closing of the American mind affected the study of literature? Amid diverse theoretical debates about the canon in the media and in academia, these essays explore where the profession is going and what its responsibilities are. The collected essays range through a variety of topical issues: the problem of negotiating between intellectual and political forces; current controversies within Afro-American and feminist criticism; the influence of cultural and gay studies on the profession.

Abstract

"Providing the tools necessary for a robust debate, this book explains various forms of scientific misconduct and describes real ethical controversies that have occurred in science. The first part of the book includes a description of a variety of ethical violations, why they occur, how they are handled, and what can be done to prevent them along with a discussion of the peer-review process. The second part of the book presents real-life case studies that review the known facts and allows readers to decide for themselves whether an ethical violation has occurred and what should be done"-- Provided by publisher.

- P1
- Abstract  
 Geoid is vital information in the determination of orthometric height via GNSS levelling. Based on the ellipsoidal height observed by GNSS, the accurate orthometric height can be easily computed by adding precise and accurate geoid model information. This will particularly enable the users to replace the traditional orthometric height determination techniques to become faster and more cost effective.

1. Physics.I. Title

P1

Abstract

Covers a broad scope of subjects, from classical physics that goes back to the age of Newton to new ideas just formulated in the twenty-first century. The book highlights the core areas of physics that predate the twentieth century, including mechanics electromagnetism, optics, and thermodynamics. It also focuses on modern physics, covering quantum mechanics, atomic and nuclear physics, fundamental particles, and relativity

P1

Abstract

While landscaping has the potential to be part of the solution to certain environmental problems, the quest for beauty can also produce effects that are harmful to the environment. Sustainable Landscaping: Principles and Practices examines landscape practices that adversely affect the environment, which occur in the process of constructing, implementing, and managing residential and commercial landscapes. It explores ways to change these practices to have a more positive effect, describing the principles of sustainable landscaping and proposing solutions to challenges that can arise.

- ISBN 0444700323
1. Human mechanics - Technique - Research 2. Kinesiology - Research - Technique 3. Human mechanics - Mathematical models 4. Artificial intelligence. I. Morasso, P. II. Tagliasco, V. III. Title
- P1
- Abstract  
The volume applies to the study of the motor system the computational approach developed by David Marr for the visual system. Accordingly, understanding movement is viewed as an information processing problem, centred on

the representation of appropriate computational structures. In particular, the book deals with the representation of objects, concurrent parallel processes, trajectory formation patterns and patterns of interaction with the environment. A number of modeling techniques are discussed, ranging from computational geometry to artificial intelligence, integrating very different aspects of movement, especially those which are not directly motoric.

338. QP303 .H35 2006

Hall, Susan J. , 1953-

Basic biomechanics / Susan J. Hall, 1953-  
xvi. 544 pages: illustrations; 28 cm.

ISBN 9780071104319

1. Biomechanics 2. Biomechanics - Problems, exercises, etc. I. Title

P4

Abstract

The Basic Biomechanics has been significantly updated from the previous edition. The approach taken remains an integrated balance of qualitative and quantitative examples, applications, and problems designed to illustrate the principles discussed. This edition also retains the important sensitivity to the fact that some beginning students of biomechanics possess weak backgrounds in mathematics. For this reason, it includes numerous sample problems and applications, along with practical advice on approaching quantitative problems.

SPORTS MEDICINE ESSENTIALS: CORE CONCEPTS IN ATHLETIC TRAINING & FITNESS INSTRUCTION / Jim Clover

xix, 678 pages: illustrations; 28 cm.

ISBN 9781133281245

ISBN 1133281249

1. Athletic Injuries - therapy 2. Sports Medicine 3. Physical Education and Training. I. Title

P4

#### Abstract

Key topics address fitness assessment, conditioning, emergency preparedness, injury management, therapeutic modalities, nutrition, ethical and legal considerations, and much more. Students will explore careers in fitness instruction, athletic training, exercise physiology, sports management, and even physical therapy, while practicing important, job-related skills. More than a text, this unique hands-on learning tool asks students to perform essential skills, such as taping injuries, researching sports medicine supplies and their costs, and even forming a mock safety committee to mitigate injury risks to athletes.

P4

#### Abstract

Therapeutic Modalities for Musculoskeletal Injuries, applies evidence-based research and clinical experiences of top practitioners in the field to optimize the care of musculoskeletal injuries and provides students and practitioners with solid fundamentals in development of rehabilitation programs. The content of this fourth edition has been significantly updated and revitalized to include all modalities that coincide with BOC requirements and offers the latest in contemporary science in the field.

 Abstract  
 The Handbook presents principles which form the foundation of the profession and incorporates a set of spinal and peripheral regional chapters which detail functional anatomy, the injuries common to those regions, and evidence-based assessment and management approaches. Its design incorporates numerous photographs, figures, tables, practitioner tips and detailed sample Patient Record Forms. This book is comprehensively referenced and multi-authored, and is essential to anyone involved in sports therapy, from their first year as an undergraduate, to those currently in professional practice.

 P4  
 Abstract  
 World-class rehabilitation of the injured athlete integrates best practice in sports medicine and physical therapy with training and conditioning techniques based on cutting-edge sports science. In this ground-breaking new book, leading sports injury and rehabilitation professionals, strength and conditioning coaches, biomechanists and sport scientists show how this integrated model works across the spectrum of athlete care. In every chapter, there is a sharp focus on the return to performance, rather than just a return to play.

#### Abstract

Designed for undergraduate course work, this exercise physiology textbook unites research and theory with real-world application so students can easily relate to the concepts being presented. The unique applied approach fully engages you in discovering how the human body works and responds to exercise. You'll not only gain a solid foundation in exercise physiology concepts, you'll also learn how to apply these concepts on the job to optimize athletic performance and well-being. Moreover, you'll come to understand the vital health benefits of exercise and physical activity for all individuals at all ages, including special populations.

1. Image processing - Digital techniques. I. Faculty of Computer and Mathematics Sciences. II. Fakulti Sains Komputer dan Matematik. III. Title

P1

### Abstract

Advancement of the imaging technology nowadays demands sophisticated method to represent the captured image in the form of curves and surfaces. However, the challenge in curve and surface fitting techniques is the smoothness and accurateness of the result and the complexity of the techniques. Therefore, the primary goal of this research is to develop new curve and surface fitting techniques using beta-spline which has G2 continuity, high accuracy and less number of computations. This is due to the properties of cubic beta-spline itself with G2 conditions, and located close to the control polygon.

P1

Abstract

Nanomaterials are important to today's area of research due to their unique properties and characteristics. Metal oxide nanostructures are important because they can be utilised in various applications. Therefore, new findings in this area of research are well sought-after. Nanomaterials research not only involves the development of new materials but also characterisation methods and device fabrication. It is important that the new and novel materials are understood from the physics and the chemistry points of view so that the science and technology of nanomaterials and devices can be carefully documented and established.

FSPU

Abstract

As a construction project manager, achieving this while maintaining quality is the most valuable package you can offer your clients. Of course, its value derives largely from its difficulty – if it were easy to complete jobs entirely to plan then it would happen rather more often. Using a combination of worked examples and case studies, this book examines how projects go over-cost, what lessons can be learned from past examples and what approaches have successfully been employed.

Finite-Element Modelling of Structural Concrete : Short-Term Static and Dynamic Loading Conditions / Michael

D. Kotsovos

xv, 365 pages: illustrations; 27 cm.

ISBN 9781498712309

1. Reinforced concrete construction 2. Finite element method.I. Title

P3

Abstract

Finite-Element Modelling of Structural Concrete: Short-Term Static and Dynamic Loading Conditions presents a finite-element model of structural concrete under short-term loading, covering the whole range of short-term loading conditions, from static (monotonic and cyclic) to dynamic (seismic and impact) cases. Experimental data on the behavior of concrete at both the material and structural levels reveal the unavoidable development of triaxial stress conditions prior to failure which dictate the collapse and ductility of structural concrete members. Moreover, and in contrast with generally accepted tenets, it can be shown that the post-peak behavior of concrete as a material is realistically described by a complete and immediate loss of load-carrying capacity.

P3

Abstract

Originally published in the fall of 1983, Braja M. Das' Seventh Edition of PRINCIPLES OF FOUNDATION ENGINEERING continues to maintain the careful balance of current research and practical field applications that has made it the leading text in foundation engineering courses. Featuring a wealth of worked-out examples and figures that help students with theory and problem-solving skills, the book introduces civil engineering students to the fundamental concepts and application of foundation analysis design. Throughout, Das emphasizes the judgment needed to properly apply the theories and analysis to the evaluation of soils and foundation design as well as the need for field experience.

P1

Abstract

The phenomena of local scour and sediment transport due to a horizontal jet issuing from a sluice and flowing over a rigid apron, then on to an erodible bed, have been investigated. Based on experimental data, the scour characteristics have been correlated through the development of empirical expressions for the time to reach equilibrium stage, the locations of maximum scour depth and peak of dune, and the variation of maximum scour depth with time.

#### Abstract

With contributions from a number of experts in the field and the inclusion of real life case studies this book will be the first port of call for practising engineers working in the areas of flood risk management and drainage. Coverage includes the design of fluvial, coastal and urban flood defences, as well as guidance on relevant legislation, lessons learned from past disasters and means of improving the environment while managing flood risk. The intended audience is practising (graduate to senior level) engineers, hydrologists and project managers working on flood defence projects, mainly in consultancies but also in the Environment Agency and Local Authorities.

#### Abstract

"Principles of Environmental Engineering" is intended for a course in introductory environmental engineering for sophomore- or junior-level students. The emphasis of this text is on engineering principles rather than on engineering design. Students should understand such calculus topics as differentiation, integrations, and differential equations. Principles places more emphasis on scientific principles, ethics, and safety, and focuses less on engineering design. The text exposes students to a broader range of environmental topics through separate chapters on ecosystems, geological and soil resources, and agricultural effects. This new edition includes a new chapter on Biology, updated science and technology discussions to reflect the latest trends and new case studies in each chapter.

P3

Abstract

In *The Clean Tech Revolution*, authors Ron Pernick and Clint Wilder identify the major forces that have pushed clean tech from back-to-the-earth utopian dream to its current revolution among the inner circles of corporate boardrooms, on Wall Street trading floors, and in government offices around the globe. By highlighting eight major clean-tech sectors—solar energy, wind power, biofuels and biomaterials, green buildings, personal transportation, the smart grid, mobile applications, and water filtration—they uncover how investors, entrepreneurs, and individuals can profit from this next wave of technological innovation.

P3

Abstract

The book concludes with a summary of likely trends for the 1990's. Readable, concise, practical, and well-referenced, these essays will be essential reading for corporate and governmental executives, engineers, accountants, and lawyers with any responsibility for environmental management. It will also be an invaluable resource book for university ecologists and environmental scientists and for anyone concerned with the practicalities of today's environmental problems.

P3

Abstract

Public agencies and industry will probably spend tens of billions of dollars on new water pollution abatement facilities in the next few decades. Added billions will be spent for the operation of new and existing facilities. How can physical science research reduce the cost of achieving objectives? And how can social science research make sure that the right objectives are being efficiently pursued? This title, first published in 1962, is directed to the orientation of the research effort, and the tool used for this purpose is an economic framework. This book will be of interest to students of economics and environmental studies.

Abstract

Environment and Services provides a comprehensive introduction to the technical aspects of building design and construction in the fields of physical environment and services installation. It explains the principles involved, the materials and equipment required, design methods and applications. The book is suitable for undergraduate degree courses in building, building surveying, building engineering and management, and architecture. It is also suitable for HNC/D courses in building studies and building services engineering as well as CIOB and RIBA examinations.

P1

Abstract

Malaysia is one of developing countries endowed with abundant resources of raw materials which have to be exploited especially in terms of technological provision in order to sustain and enhance aromatic plants industries and utilization. The essential oil from plant materials contains fragile aromatic molecules that can easily be destroyed or modified by changes caused during the extraction process. Even a subtle difference in extraction process conditions can have a significant effect on oil quality...

THE EFFECT OF ISO-BUTANOL ADDITIVE IN METHANOL-GASOLINE BLENDS ON ENGINE PERFORMANCE AND EXHAUST EMISSION USING SPARK IGNITION ENGINE / Hazim Sharudin

xvi, 125 pages: illustrations; 30 cm.

1. Methanol as fuel 2. Alcohol as fuel 3. Alcohol as fuel - Testing. I. Faculty if Mechanical Engineering. II. Fakulti Kejuruteraan Mekanikal. III. Title

P1

Abstract

The application of alcohol fuels on spark ignition (SI) engine has recently become an attraction as an alternative to gasoline fuel. This is due to the concerns on environmental pollution, depletion of fossil fuels, and stringent regulation. Alcohol fuel is indeed an attractive alternative fuel as it had been found to improve octane number, enhance oxygen content, and reduce carbon monoxide emissions. One of the well-known alcohol fuels is methanol fuel that can be blended with gasoline to produce better engine operation in spark ignition engine...

- Abstract  
Over the last three decades the process industries have grown very rapidly, with corresponding increases in the quantities of hazardous materials in process, storage or transport. Plants have become larger and are often situated in or close to densely populated areas. Increased hazard of loss of life or property is continually highlighted with incidents such as Flixborough, Bhopal, Chernobyl, Three Mile Island, the Phillips 66 incident, and Piper Alpha to name but a few.

- Abstract  
 Manufacturing Engineering and Technology, presents a mostly qualitative description of the science, technology, and practice of manufacturing. This includes detailed descriptions of manufacturing processes and the manufacturing enterprise that will help introduce students to important concepts. With a total of 120 examples and case studies, up-to-date and comprehensive coverage of all topics, and superior two-color graphics, this text provides a solid background for manufacturing students and serves as a valuable reference text for professionals.

P1

Abstract

This Professorial Lecture publication is based on the countless hours of precise and meticulous research and literature in order to offer its readers a clear picture on how the Zionist and pro-Israeli media manipulates and portrays issues which involves their interest as well as how Arabs and Muslim were portrayed by them. A large part of the pro-Israeli propaganda machine has been known to engage in 'war journalism' to ensure the pursuit of Israeli interest at any cost. Although the world media traditionally tries to create an illusion of propagating peace among their audiences, through skewed and biased interpretation, the media can be manipulated and abused to channel and unleash a new type of warfare to influence audiences' perceptions on a global state.

### Abstract

This popular textbook provides a concise, but comprehensive, overview of health research as an integrated, problem-solving process. It bridges the gap between health research methods and evidence-based clinical practice, making it an essential tool for students embarking on research. Practitioners also benefit from guidance on interpreting the ever-expanding published research in clinical and scientific journals, to ensure their practice is up to date and evidence-based and to help patients understand information obtained online.

### Abstract

This companion volume to Biological Monitoring of Exposure to Chemicals: Organic Compounds presents recent results from both field and laboratory studies investigating the presence of metals and organometallic compounds in biological media. A distinguished list of contributors describe studies which assess the extent of human exposure to metals, and recount fundamental studies at the molecular level, such as investigation of immunotoxicological effects of the interaction of metals during absorption and biological transformation. There is also a study of the biological monitoring of environmental contamination that demonstrates how biological samples determine the transport and fate of metals in the environment.

- Abstract  
1-2-3 Steps to Endodontic Success contains a total of nine topics with 13 projects. Numerous photos, step-by-step guide and simplified format will enable better understanding by the students. Overview of the procedures provides a brief scientific basis and rationale of each procedure. Students will also be able to better prepare themselves before undertaking the endodontic procedures described in this manual with the list of armamentarium provided in topic.

Abstract  
This book provides comprehensive guides for students and information professionals in e-book selection practices. It begins with the overview, history and theories related to e-book selection. It also includes comprehensive discussion on e-book selection practices, library initiatives planning and library return on investment. Each chapter comprises a few sub-topics which describe in details the main idea. In making the content more interesting, the book includes detail explanation on patron-driven acquisition as another method of purchasing e-book. Finally, this book provides the conceptual framework for the above concepts.
