AUTHOR'S DECLARATION

I declare that the work in this dissertation was carried out in accordance with the regulations of Universiti Teknologi MARA. It is original and is the results of my own work, unless otherwise indicated or acknowledged as referenced work. This thesis has not been submitted to any other academic institution or non-academic institution for any degree or qualification.

I, hereby, acknowledge that I have been supplied with the Academic Rules and Regulations for Under Graduate, Universiti Teknologi MARA, regulating the conduct of my study and research.

Name of Student : Siti Baroroh binti Daim

Student I.D. No. : 2014895508

Programme : Bachelor of Surveying Sciences and Geomatics –
AP220

Faculty : Architecture, Planning and Surveying

Thesis : Analyzing Chronology of Bukit Kepong Attack Using
3D Model Reconstruction of Bukit Kepong Police
Station

ABSTRACT

Digital documentation of historic building in Malaysia rarely exists because technology in early time is not capable in providing a decent documentation. Documentation of historic building is necessary in order to conserve the history of the building itself. The conservation of historic building helps public to get better understanding and appreciate the history of the buildings. The purpose of this research is to analyze chronology of Bukit Kepong Police Station attack using 3D model of Bukit Kepong Police Station and its surrounding topography for PDRM's uses by using SketchUp Pro. This research can also serve the purpose in increasing public awareness about history of Bukit Kepong Police Station tragedy. Since the research about historic building in Malaysia is lack, the idea to do this research is come out. The main data required to conduct this research is image of Bukit Kepong Police Station remains and its surrounding topography. This research utilized the images collected into 3D model with the aid of SketchUp Pro software. From the generated 3D model, analysis on the chronology of the incident can be well-studied and can be used as future reference and increase public awareness about this tragic incident. 3D model of historic building can help people to understand better about an object even the object is not accessible. There are two major outcomes in this research which are 3D model of Bukit Kepong Police Station and 3D model of surrounding topography of the historic building.

ABSTRACT	iv
ACKNOWLEDGEMENT	v
TABLE OF CONTENT	vi
LIST OF FIGURES	viii
CHAPTER ONE: INTRODUCTION	1
1.1 Introduction	1
1.2 Research Background	1
1.3 Research Gap	3
1.4 Problem Statement	4
1.5 Aim and Objectives	5
1.6 Research Question	5
1.7 Proposed Methodology	6
1.7.1 Data Collection	8
1.7.2 Data Processing	8
1.8 Significance of Study	9
1.9 Structure of Thesis	9
1.10 Summary	10
CHAPTER TWO: LITERATURE REVIEW	11
2.1 Introduction	11
2.2 Bukit Kepong Police Station	11
2.3 3D Model Generations	12
2.4 3D Software	13
2.5 Documentation of Historic Building	15
2.6 Summary	16

CHAPTER THREE: METHODOLOGY	17
3.1 Introduction	17
3.2 Methodology	17
3.3 Research Planning	18
3.3.1 Study Area	18
3.3.2 Research Tools and Instruments	19
3.4 Data Collection	20
3.4.1 Image of Bukit Kepong Police Station Remains	20
3.4.2 Image of Bukit Kepong Police Station Surrounding Topography	22
3.5 Data Processing	23
3.5.1 3D Model Generations of Bukit Kepong Police Station	24
3.5.2 3D Model Generations of Bukit Kepong Police Station Surrounding Area	25
3.6 Summary	25
CHAPTER FOUR: RESULTS AND ANALYSIS	26
4.1 Introduction	26
4.2 3D Model Of Bukit Kepong Police Station	26
4.2.1 Analysis on Generated 3D Model of Bukit Kepong Police Station	28
4.3 3D Model Of Bukit Kepong Police Station Surrounding Topography	29
4.3.1 Analysis on Generated 3D Model of Bukit Kepong Police Station Surrounding Topography	29
4.4 Chronology of Bukit Kepong Police Station Attack Based on Generated Model	30
4.5 Summary	35
CHAPTER FIVE: CONCLUSION AND RECOMMENDATION	36
5.1 Summary	36
5.2 Limitation of Study	36
5.3 Recommendation	36
5.4 Conclusion	37
