ABSTRACT

The purpose of the research is to determine whether the present movement of container delivery is beneficial operationally. Comparison ~~will~~^{is} be made between the present movement of container delivery, that is, from ICD to shipper and then back to ICD with the alternative movement, that is from ICD to shippers and then direct to Container Yard, Port Klang. At the moment, all the containers are stored at ICD, Seri Setia and consequent delivery to Port Klang. For the alternative movement, the boxes will be directly transported to Container Yard, Port Klang from the shipper's premises. The method that are used in collecting information and data are observations and interviews. This study will give some guidelines in identifying which movement will contribute less problems to the Company. The findings in this research is in line with the hypothesis, that is, the Haulage Department is operating at the efficient level with the present system of modus operandi due to the faster turnround time and higher rate of utilisation of its fleet movement.

ACKNOWLEDGEMENT

My sincere thanks to all persons at Haulage Department and Warehouse Department of ICD, Seri Setia, who gave support and encouragement for the completion of the thesis.

My appreciation also goes to my Advisor, Puan Norlida Abdul Hamid, for her guidance, comments and advice in the preparation of the thesis.

Finally, special thanks to all friends and my family. With their inspiration, confidence and love, make it all possible.

TABLE OF CONTENTS	PAGE
Abstract.....	i
Acknowledgement.....	ii
Table Of Contents.....	iii
List Of Tables.....	vii
List Of Figures.....	viii
List Of Abbreviations.....	ix

CHAPTER ONE: INTRODUCTION

1.0 Introduction.....	1
1.1 Kontena Nasional Historical Background.....	2
1.2 Container Haulage.....	9
1.3 ICD Historical Background.....	10
1.4 Organisational Structure (PJ Branch).....	13
1.5 Management Of ICD.....	14
1.6 Area Of Research Under Haulage Department.....	15

CHAPTER TWO: BACKGROUND OF THE STUDY

2.1 Purpose Of The Study.....	16
2.2 Objectives Of The Study.....	17
2.3 The Scope And Limitations Of The Study.....	18
2.4 Problem Statements.....	19
2.5 Literature Review.....	21
2.6 Hypothesis.....	26
2.7 Methodology.....	27

CHAPTER THREE: PRESENT AND ALTERNATIVE MOVEMENT
OF CONTAINER DELIVERY

3.1 Total Movement.....	30
3.2 Modus Operandi.....	36
3.2.1 Movement Of Container Fleet From ICD To Client And Vice Versa.....	38
3.2.2 Movement Of Container Fleet From ICD To KCT And Vice Versa.....	40
3.3 Scheduling And Routing Of Container Delivery.....	42
3.4 Number Of Equipments.....	45
3.5 Fleet Utilisation.....	47
3.5.1 Introduction.....	47
3.5.2 Turnround Time.....	49
3.5.2.1 Present Movement.....	49
3.5.2.2 Alternative Movement.....	52
3.5.3 Rate Of Utilisation Of Container Fleet Movement.....	55
3.5.3.1 Present Movement.....	55
3.5.3.2 Alternative Movement.....	62
3.5.4 Prime Movers.....	63
3.5.4.1 Present Movement.....	63
3.5.4.2 Alternative Movement.....	65
3.5.5 Trailers.....	66
3.5.5.1 Present Movement.....	66
3.5.5.2 Alternative Movement.....	68
