ABSTRACT

This graduation exercise has been written to provide a clear view and a practical overall understanding of tax exemption application for importation of material or equipment from overseas. In particular, it covers the process of preparing the tax exemption application, the documentation management, tax implications and advantages of tax exemptions for importer.

Current scenario in this operation is the internal working paper and documentation in the operation that cause reduced cost of finished or semi finished products in the domestic market. In this graduation exercise, the study will focus more on the critical path of tax exemption application.

Demand and supply always go together where the customer will make the demand and the process will continue with supply of goods from the supplies. As for this study, the objective is to find the chance to reduce the cost of the product and at last it will reduce the overall cost of importation or even a project itself.

ACKNOWLEDGEMENT

**“ IN THE NAME OF ALLAH, MOST GRACIOUS, MOST MERCIFUL “
‘ ASSALAMUALAIKUM ‘**

First and foremost, I would like to express my gratitude to Tanjongria Shipping And Forwarding generally and to the top management specifically for accepting me to be attached to its organisation. I would also like to express my special thanks to Encik Idris, the Chief Executive Officer who had allocated some of their precious time for professionally assisting me in the completion of this study.

In the preparation of this thesis, my overriding debt is to my advisor, Dr. Tengku Jamaluddin, a senior lecturer and Head of MaCTRANS whose professional assistance, guidance and constant inspiration were key factors to the realisation of this thesis.

I would like to express my profound gratitude and appreciation to the following persons for their time, co-operation and guidance towards the completion of this study, Captain Buang Ahmad, Mr. Raymond, Mr. Sugumaran, Encik Irwan and Encik Omar Ali and all the operation and finance staff.
