ABSTRACT

Maintenance industry is one sector very important in our life. Maintenance industry also use more foreign worker to maintain more buildings in Malaysia. The statistics shows the Indonesia is higher percentages than other country to work in Malaysia. The contractor more like to taken the foreign worker than local worker. First factor why contractor choose foreign worker is a low cost than taken local worker. The other reason are local worker more like choose of work and assumed this industry is very hard. Throughout research, the quality of work by foreign worker is very low. This is because the foreign workers didn't given overall reveal about training and motivation of quality on work. They are also didn't give facilities such as accommodation, transportation and others to easy life in Malaysia. The suggestion are to increase the quality work of foreign worker is given training and motivation monthly, given facilities, taken foreign worker must be follow rules and procedure before work in Malaysia. This industry also must be develop and reveal to introduce to society about the industry is very important same with development in Malaysia. This also can reduce problem of unemployment in Malaysia. The contractor must be realize about more impact negative than positive of usage foreign workers employment to our future Maintenance industries

Abstract

Chapter 1 – Introduction (The Use of Foreign Worker in Maintenance Industry)

1.1	Introduction	1
1.2	Issue / Problem Statement	3
1.3	Objective of the study	3
1.4	Scope of Dissertation	4
1.5	Methodology	4
1.6	Summary of Chapter	6

Chapter 2 – What is Maintenance Industry?

2.1	Definition of Maintenance	8
2.2	Generally	10
2.3	Function of Maintenance Industry	11
2.4	Types of Maintenance	12
2.5	Classification of Maintenance	16
2.6	Maintenance Management	18

2.7	Organization In Maintenance Management	20
2.8	Policy and Legal in Maintenance work	22
Chapter 3 – Foreign Worker in Malaysia		
3.1	Definition of Foreign Worker and History	34
3.2	Percent Distribution of Foreign Worker	
	Born Person by Occupation	34
3.3	Policy and Rules	36
3.4	Procedure to Apply Works in Malaysia	41
3.5	Quality	46
Chapter 4 – Methodology and Case Study		
4.1	Introduction Research Methodology	47
4.2	Faber Facilities Sdn. Bhd..	49
4.3	Case Study 1 – Condominium Danau Impian	51
4.4	Case Study 2 – Condominium Casa Desa	54
4.5	Case Study 3- Apartment Teratak Muhibah	57
4.6	Case Study 4 – Condominium Danau Murni	61

Chapter 5 – Analysis and Findings

5.1	Introduction	65
5.2	Questionnaire for foreign worker	66
5.2.1	Age	66
5.2.2	Gender	67
5.2.3	Foreign Worker – Country	68
5.2.4	Factor Influence of Foreign Worker in Malaysia	69
5.2.5	Scope work	70
5.2.6	Duration Working in Malaysia	71
5.2.7	Follow Rules before Working in Malaysia	72
5.2.8	Knowledge Level about Responsible on work	73
5.2.9	Knowledge Level about Rules During Works	74
5.2.10	Knowledge Level about Safety and Healthy During Work	75
5.2.11	Knowledge Level about cleanliness	76
5.2.12	Knowledge Level about Quality of Work	77
5.2.13	Knowledge Level about Training and Motivation	78
