ABSTRACT

Is the starting point for a lifetime of design education, appreciation and enjoyment. This thesis is an exciting discipline that makes life better through effective solutions to challenges. Whether your goal is career in interior design, or simply a better understanding of how to enhance your own interior design.

The objective of this thesis are threefold:

- To introduce a philosophy of and encourage an appreciation for fine design wherever it is found -from the historical to the modern to design that is continually evolving on the leading edge of technology.
- To apply timeless design principles and elements to interiors
- And to make students aware of the wide variety of floor plans .materials .furnishings and styles possible in interior design.
